BUBBLE

PLATINUM

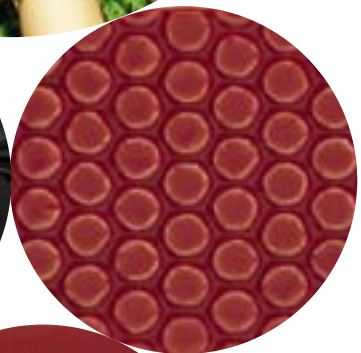

GOLD

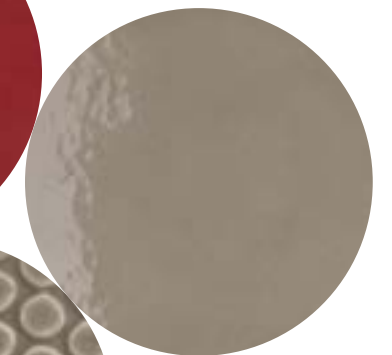

There is no limit to creativity and inspiration can stem from anything. Even packaging! Who hasn't tried popping those fun bubbles in bubble wrap? So, eureka! That's the idea behind this collection: to create a decorative design element from something that is usually discarded after use. But don't try and burst these bubbles!!! This was the goal focused on when developing the design for this new, 7.5x30 cm format, double-fired wall tile.
