WHAT ABOUT **US**

unicomstarker é da anni sinonimo di materia ceramica di altissima qualitá. Il gruppo industriale di cui é espressione, la unicom srl, si contraddistingue per una filosofia che coniuga un forte dinamismo imprenditoriale alla costante ricerca della piú evoluta avanguardia tecnologica e produttiva oltre che ad una particolare sensibilitá estetica e formale.

Un mix di successo che ha consolidato nel tempo il marchio unicomstarker quale incubatore di tendenze e creatore di prodotti innovativi di eccellente valore progettuale ai quali attingere per arricchire architetture di ogni tipologia e scala: tecniche o decorative, in/out, pubbliche e private.

unicomstarker has been recognized for years for the outstanding quality of its products.
The philosophy of the group, unicomstarker srl, is based on a dynamic buisness strategy combined with cutting edge technological research and a sure sense of beauty and style.

A successful synergy that has appointed unicomstarker internationally as a trendsetter in the market of ceramic tiles.
Its constant attention to the latest trends in interior design and the excellent technical performance makes its products suitable for all type of architectures, either residential or commercial buildings, for interior or exterior arrangements.

green

english

The company is committed to the continued technological innovation of its processes to create products that increasingly meet the demands of the market and focus on:
- reduced energy consumption in production processes;
- reduced emissions into the air and water;
- improving consumer awareness and waste management.

To curb its environmental impact, UNICOMSTARKER has taken the following steps:
- manifacturing rejects are fully managed and reused;
- all the production units are equipped with a closed-circuit water purification plant with total recovery of liquid discharges coming from the production cycle and no discharges into the environment;
- emissions of gases are authorised by the competent authority, pollutant abatement systems are fitted and undergo periodic checks to verify they comply with the current laws;
- industrial waste is disposed of in compliance with the community directives;
- packaging is sent off to be recycled and reused;
- the acoustic impact on the environment is toned down via the use of suitable technologies.

The ceramic tiles produced are:
- a long-lasting product
- recyclable at the end of their use
