Stonalizzazione

V1.

The least amount of shade and texture variation attainable in naturally fired clay products.

V2.

Light to moderate shade and texture variation within each carton.

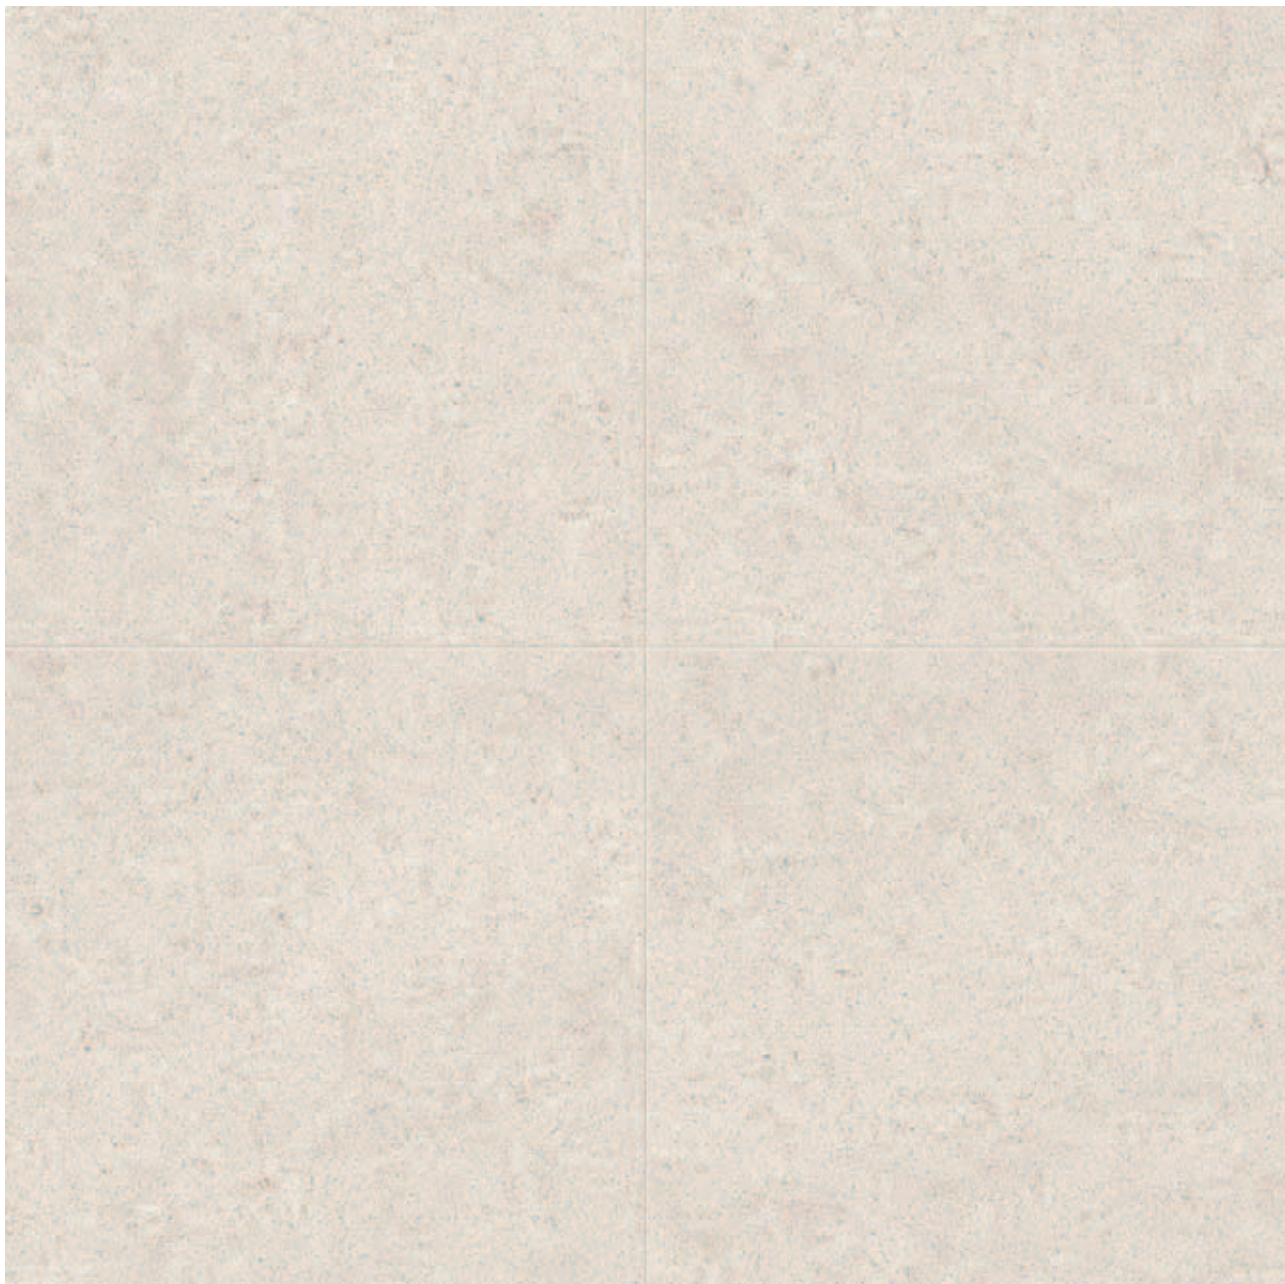

V3.

High shade and texture variation within each carton.

V4.

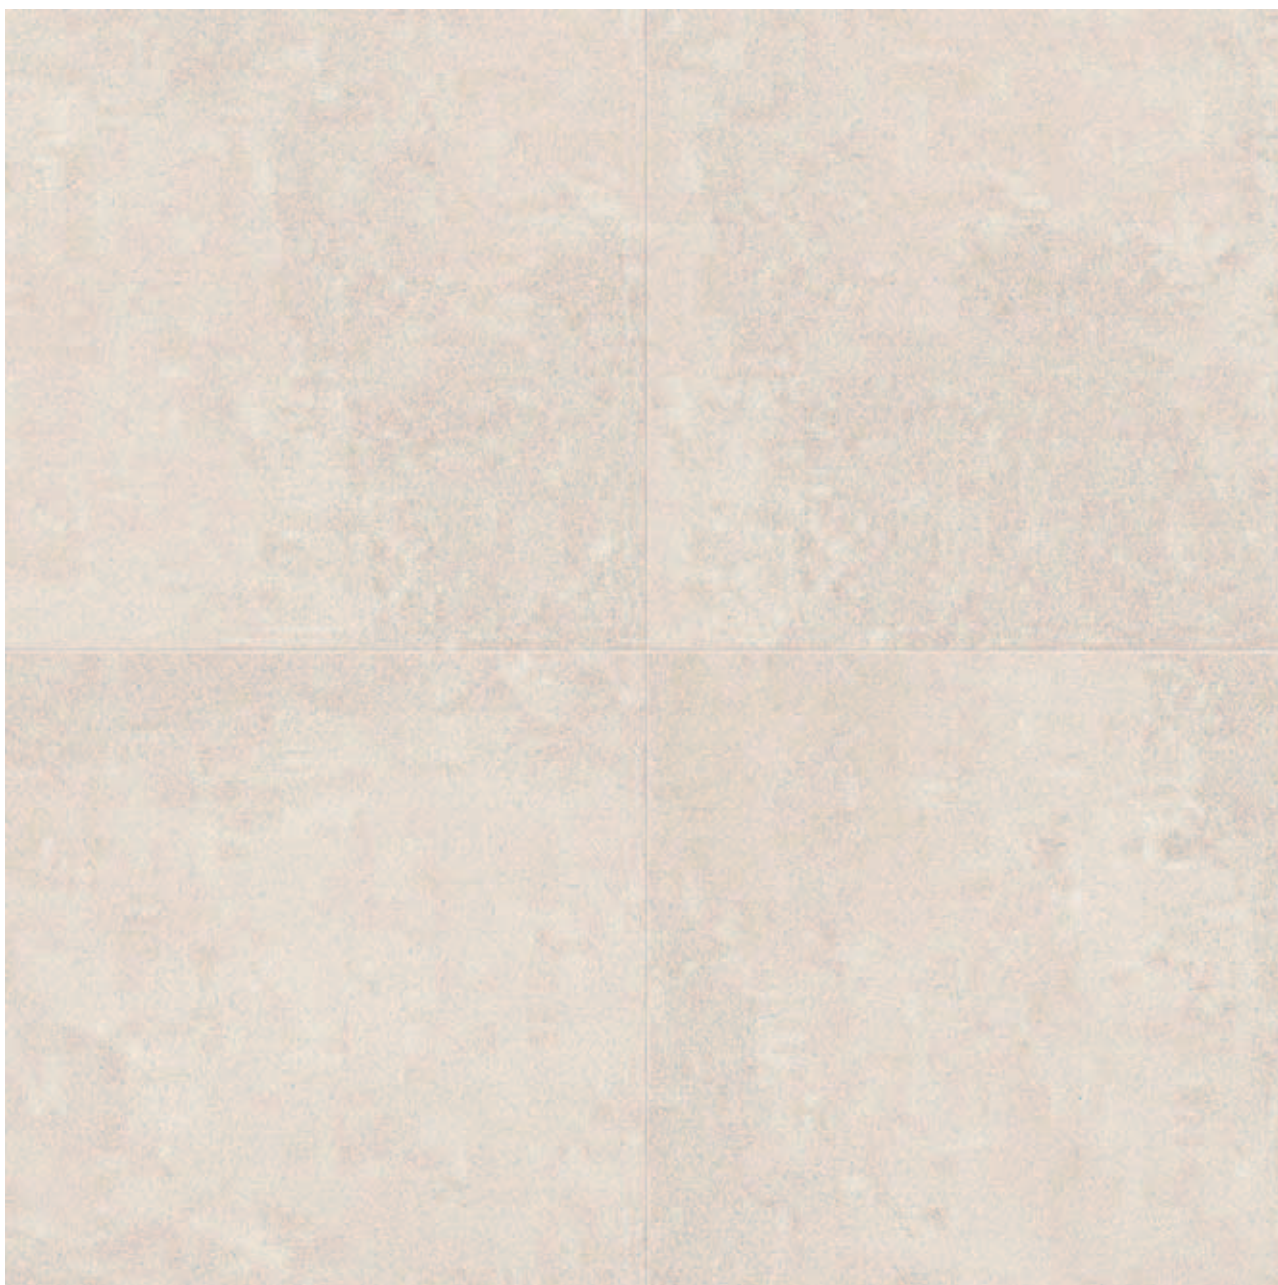

Very high shade and texture variation within each carton.

CDCST / 771231 - 10mm

Colours and surfaces can be selected in any desired combination for this decor (see example).

Technical advantages

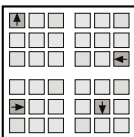

• Compact monolithic slab 2 cm thick squared and rectified

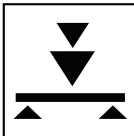

• FROST RESISTANT

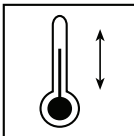

• ANTI SLIP R11

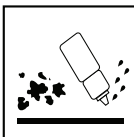

• REMOVABLE AND REUSABLE

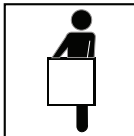

• HIGH STATIC LOAD RESISTANCE

• THERMAL SHOCK RESISTANT

• IMPERVIOUS TO ATTACK BY CHEMICALS OR MOULD

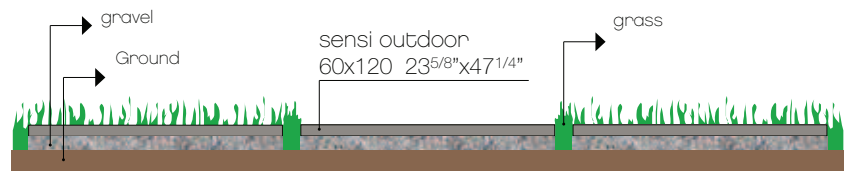

• EASY TO INSTALL

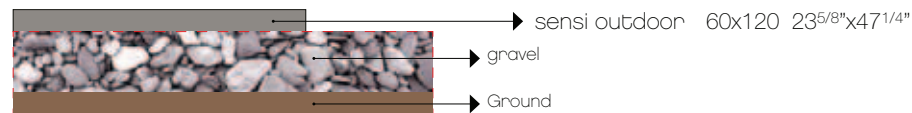

• EASY TO CLEAN

Applications

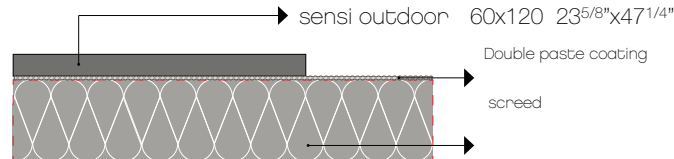

- Direct installation on grass

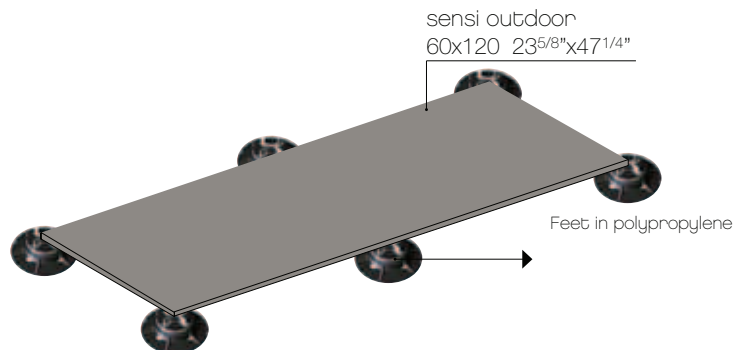

- Direct installation over gravel

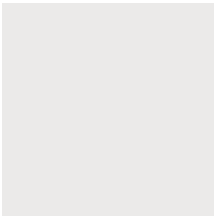

- Installation on sand-cement screed

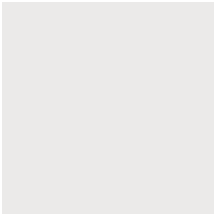

- Installation on Fixed or adjustable Feet

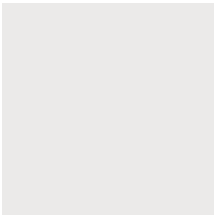

Ceramic tiles undergo a compacting thermal treatment that ensures resistance and durability. The low level of water absorption makes the slabs frost resistant. This could result in superficial water stagnations even if materials are installed in a workmanlike manner.

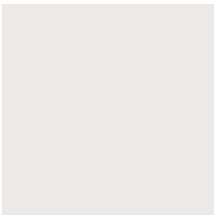

RESISTANT FOR THE HOUSE The product is water-resistant: it stops liquids, body oils, acidic and staining substances from penetrating the tiles. It resists scratches, scuffs and gouges better than any other floor covering. It doesn't absorb fumes, odors or smoke. It doesn't discolor or fade when exposed to sunlight, or other natural elements. It is completely fire-proof: it resists burns and doesn't feed a fire. Its high resistance to abrasive dirt and grime makes it suitable even for heavy-traffic areas of the house, such as hallways, entrances, foyers, walkways.

FROST RESISTANT - FOR OUTSIDE AREAS Exceeding the ADA standard requirements, the Casa dolce casa product can also be used for outside applications. It stands up to abrupt temperature changes and freezing-thaw cycles. When properly installed according to ANSI A137.1 it's strong enough to be

ANTI-SLIP The testing conducted on our finished product will guarantee that all our tiles will have an anti-slip surface so they may be used with total confidence in kitchen and bath applications. The Casa dolce casa product is perfect for both home and commercial interiors, such as restaurants, offices and stores, etc. Its anti-slip properties provide a safe walking surface in both wet and dry conditions, according to the Americans with Disabilities Act.

HYGIENE/SANITATION AND EASY CLEANING The Casa dolce casa product doesn't absorb odors or bacteria of any kind. It's easy to clean with a damp sponge-mop or cloth. For a more intense cleaning, simply use a mild solution of water and a common household detergent. Regular cleaning will stop the growth of germs and bacteria in damp areas, such as the bathroom.
