

DINAMIKA

deep surfaces

beauty springing from
a three-dimensional soul

DINAMIKA[®]
deep surfaces

Dinamika is the technological evolution of a material that has life at its core, that responds with a natural vibrancy to the beating heart of the world. Through an immersive sensory experience, every single surface detail is enhanced for unrivalled realism, achieved by the perfect synchrony between graphic design and structure.

STONE EDITION

Travertino	06

Breccia Grey	30
Pietra Pece	42

Travertino

an infinity of delicate textures

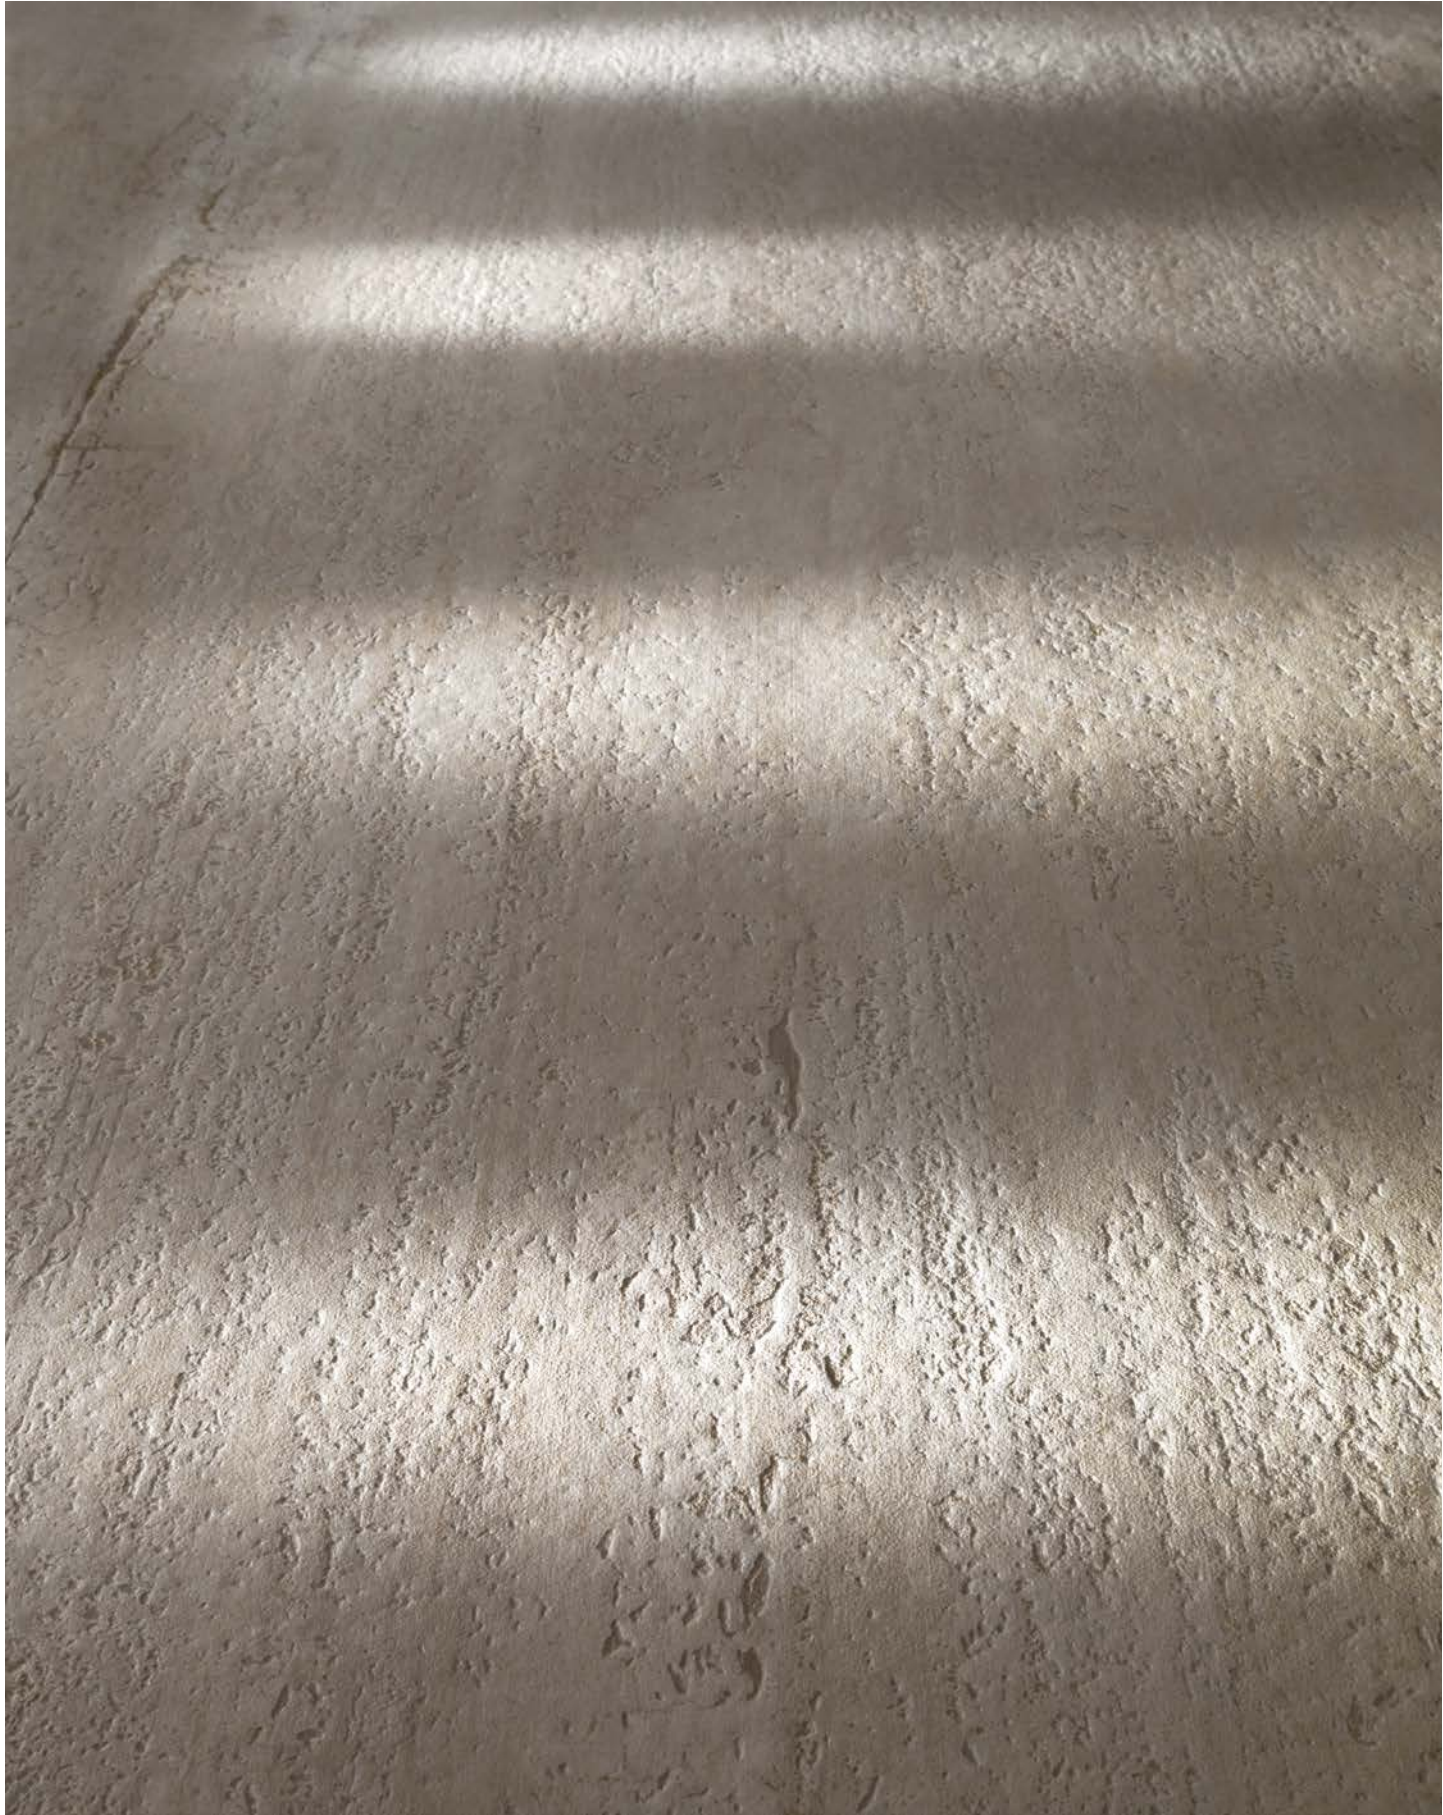

Travertino

Dinamika reinterprets sedimentary travertine stone in a surface that seems to throb with life. Small inclusions of animal and plant fossils construct a fabric of matter, layered and perfected by time, where the flawless synchrony of structure and graphic design creates a hyper-realistic impression.

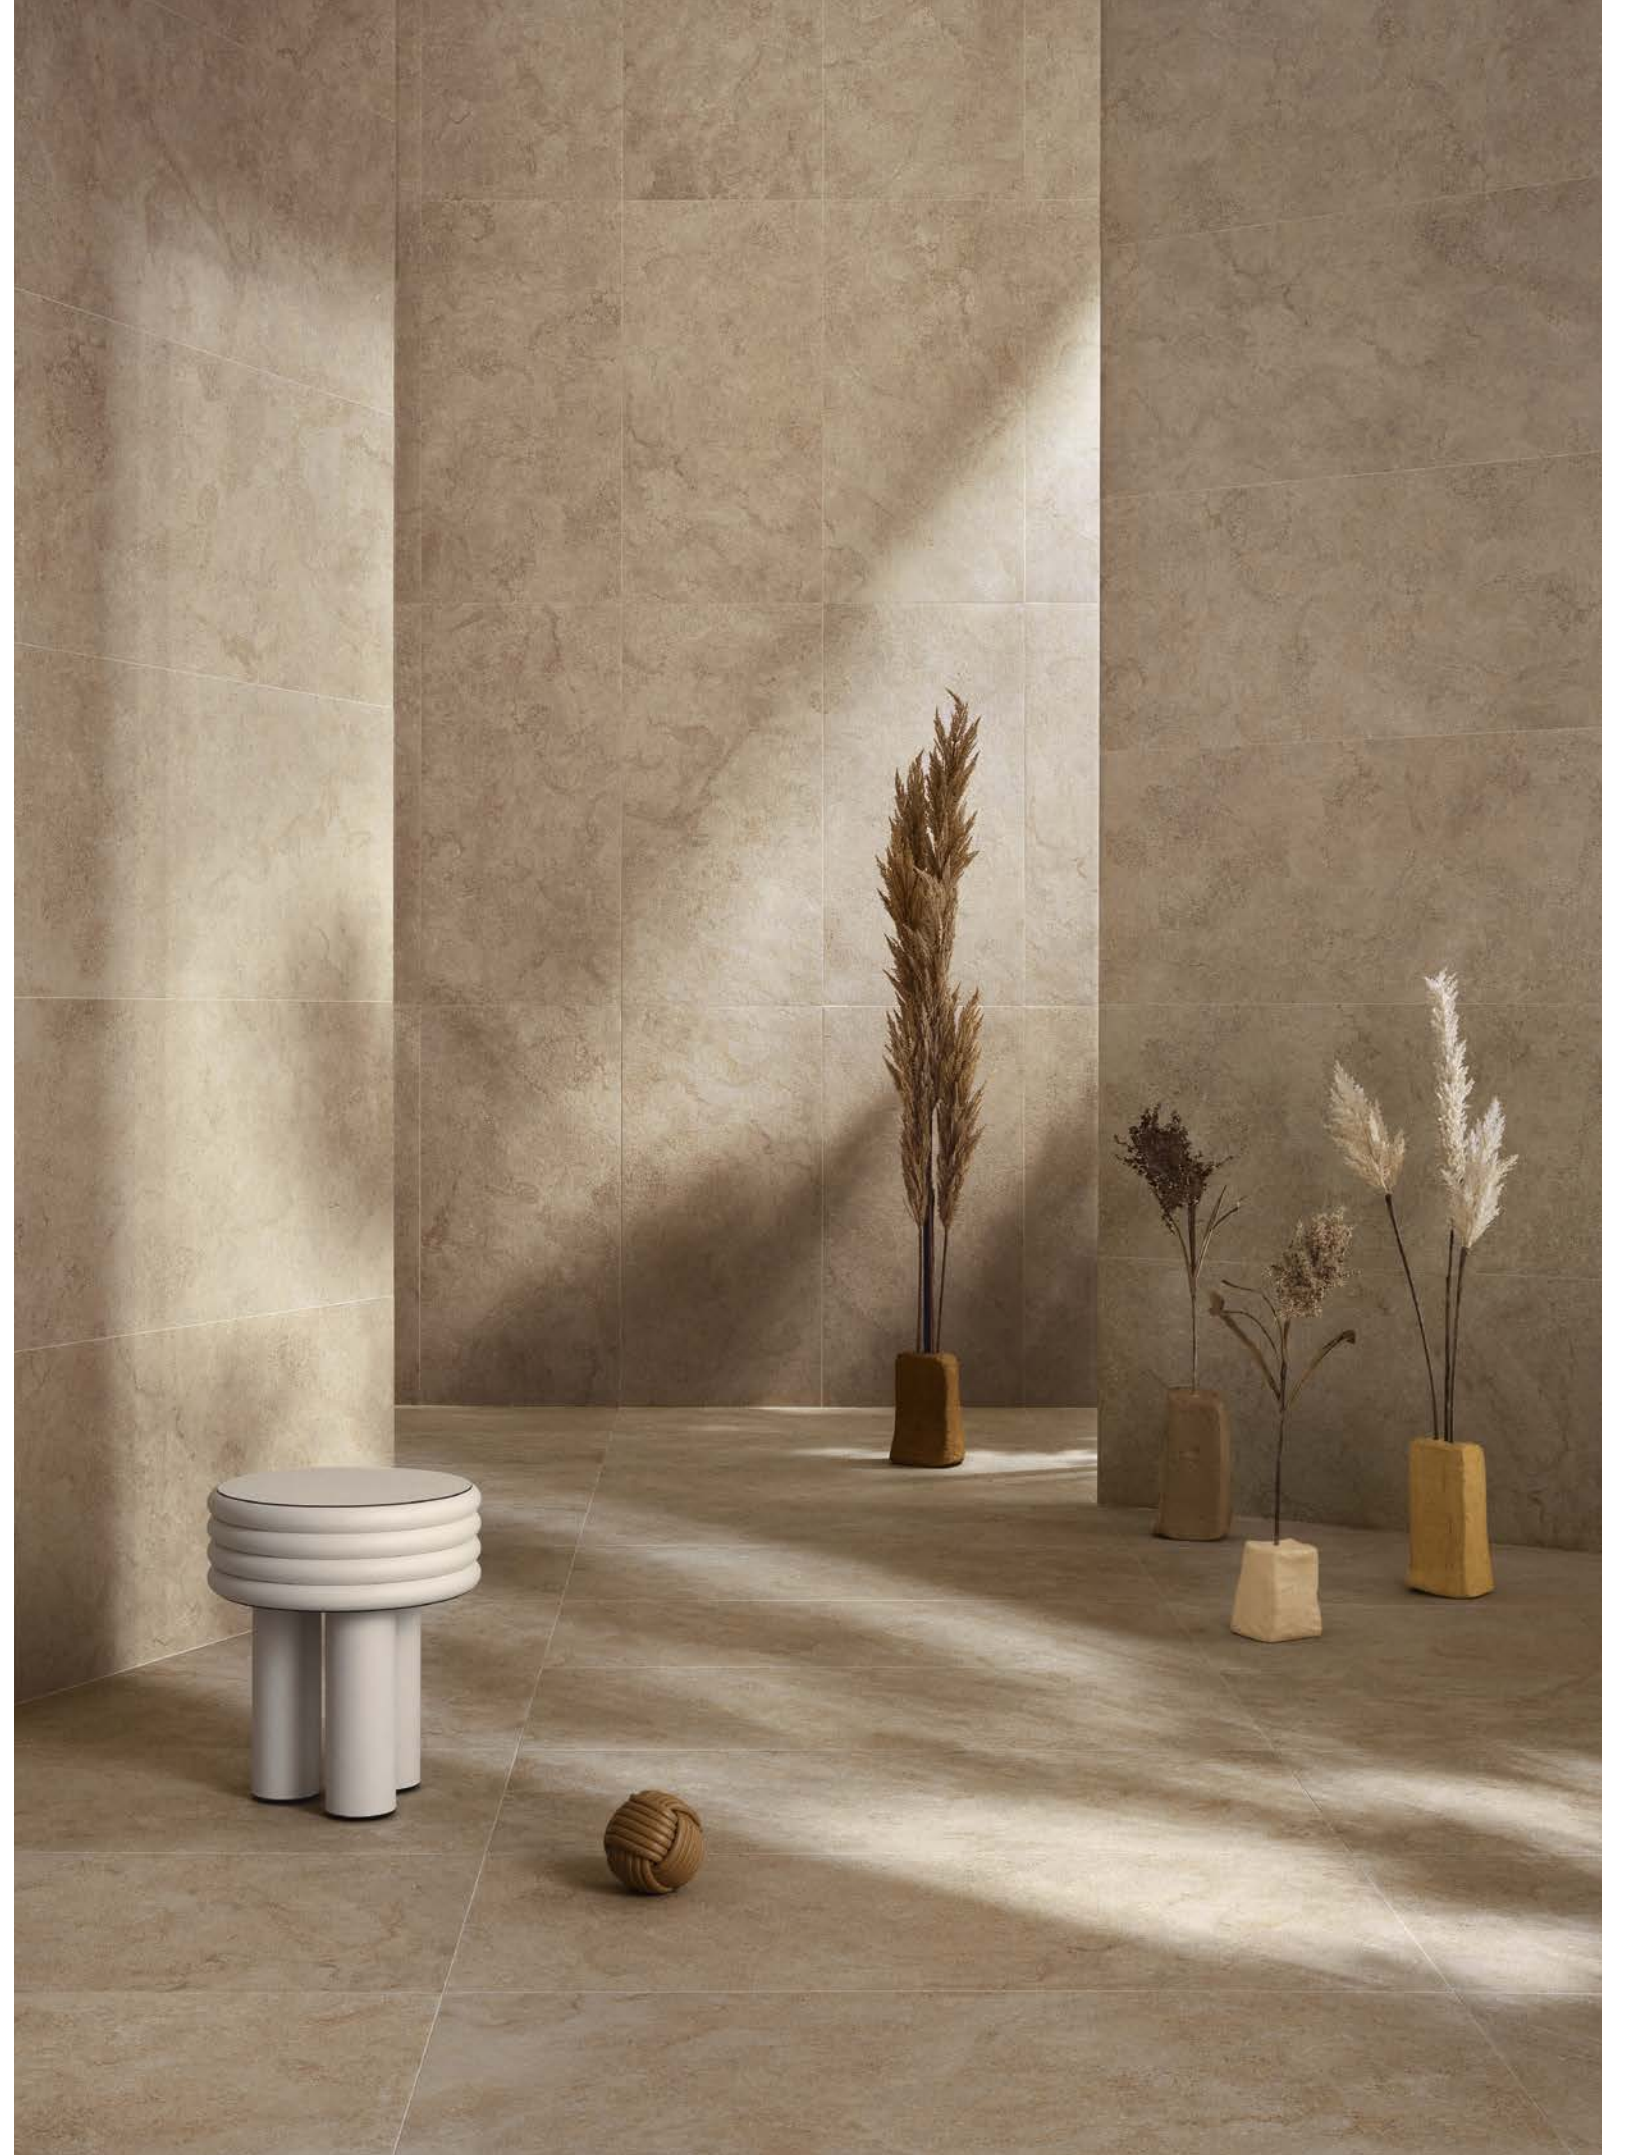

Pietra di Borgogna

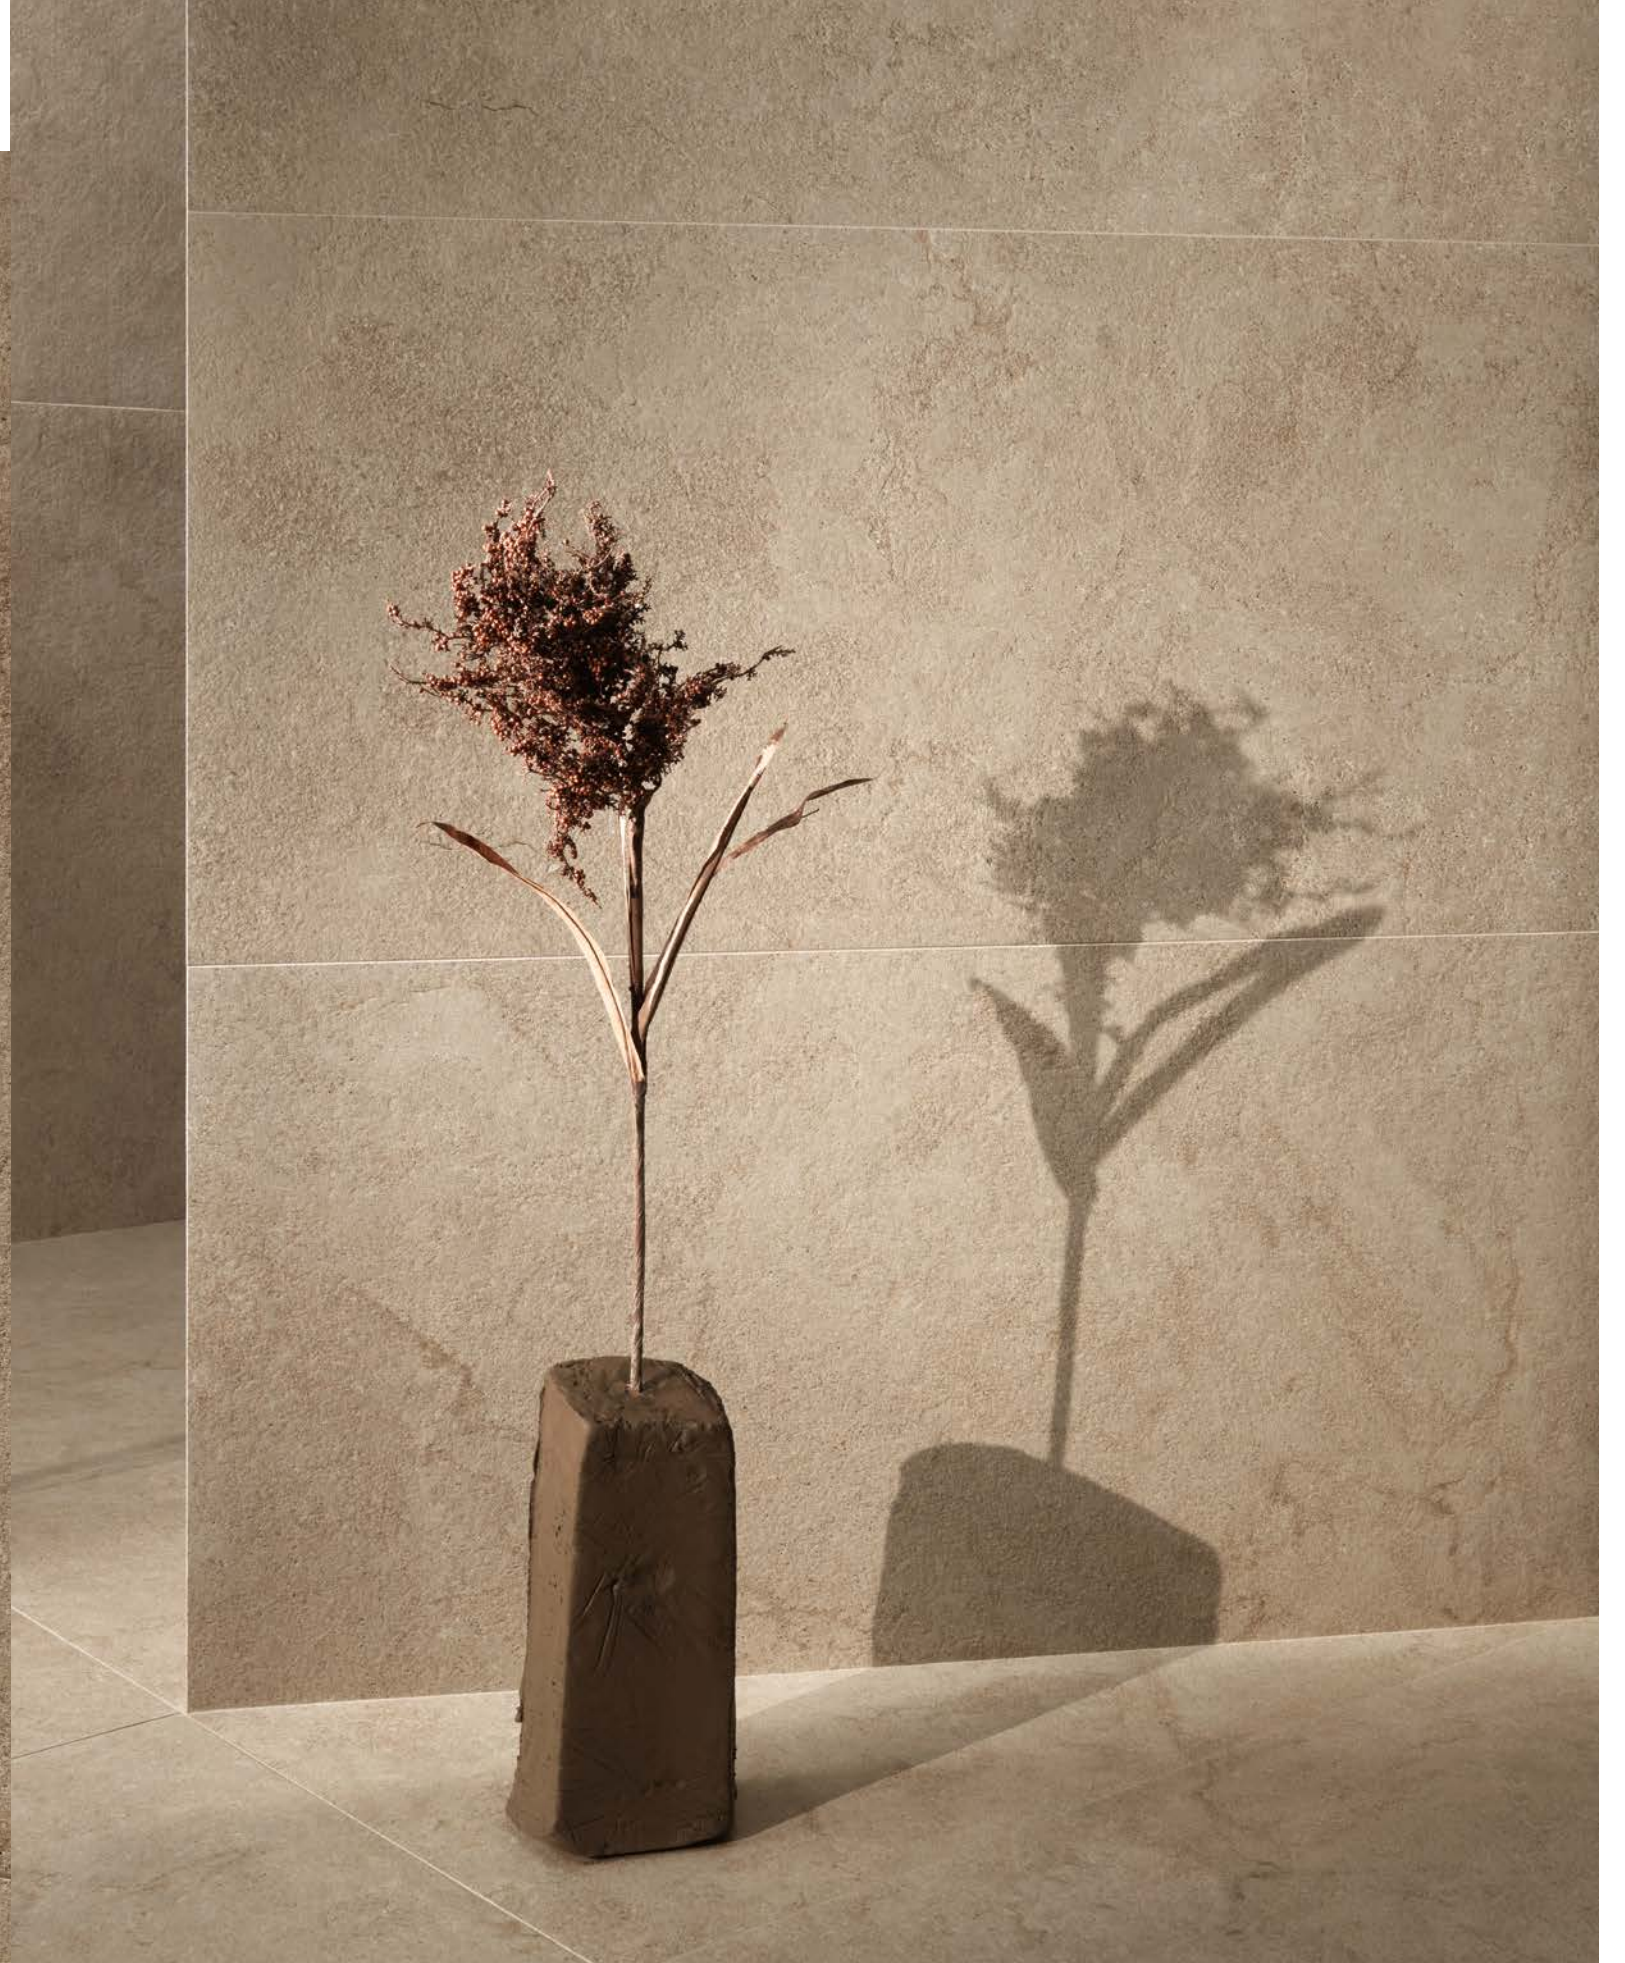

warm, free-flowing vein patterns

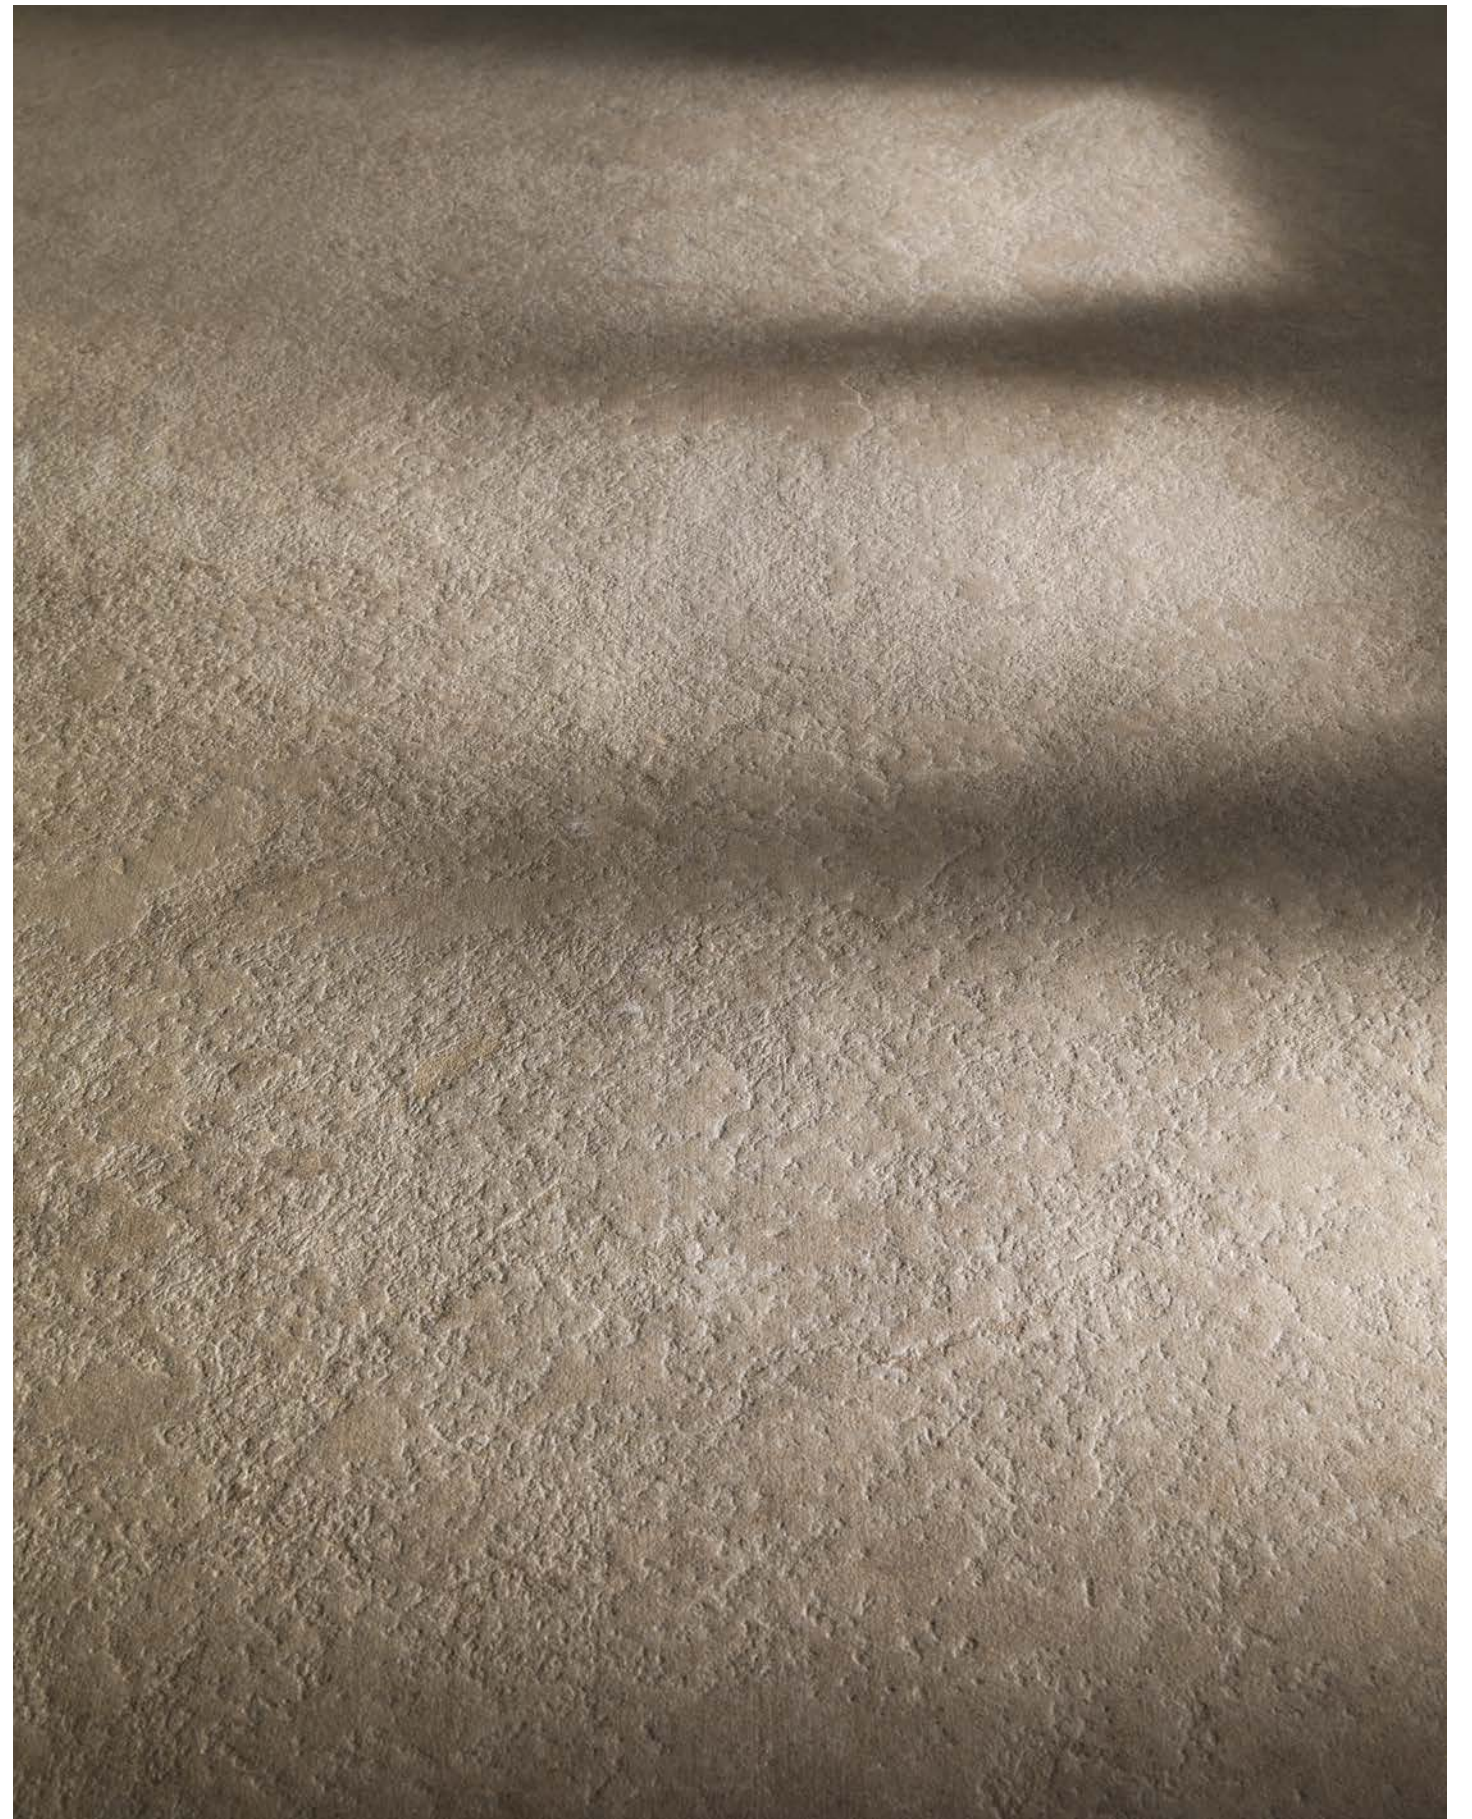

Pietra di Borgogna

Balanced shades run across a natural surface, an interpretation of one of the most widely recognised French stones in the world, a popular choice in the history of architecture. Within its material, Pietra di Borgogna encapsulates a wealth of inimitable beauty that affects sight and touch, returning the profound truthfulness of Dinamika to the world.

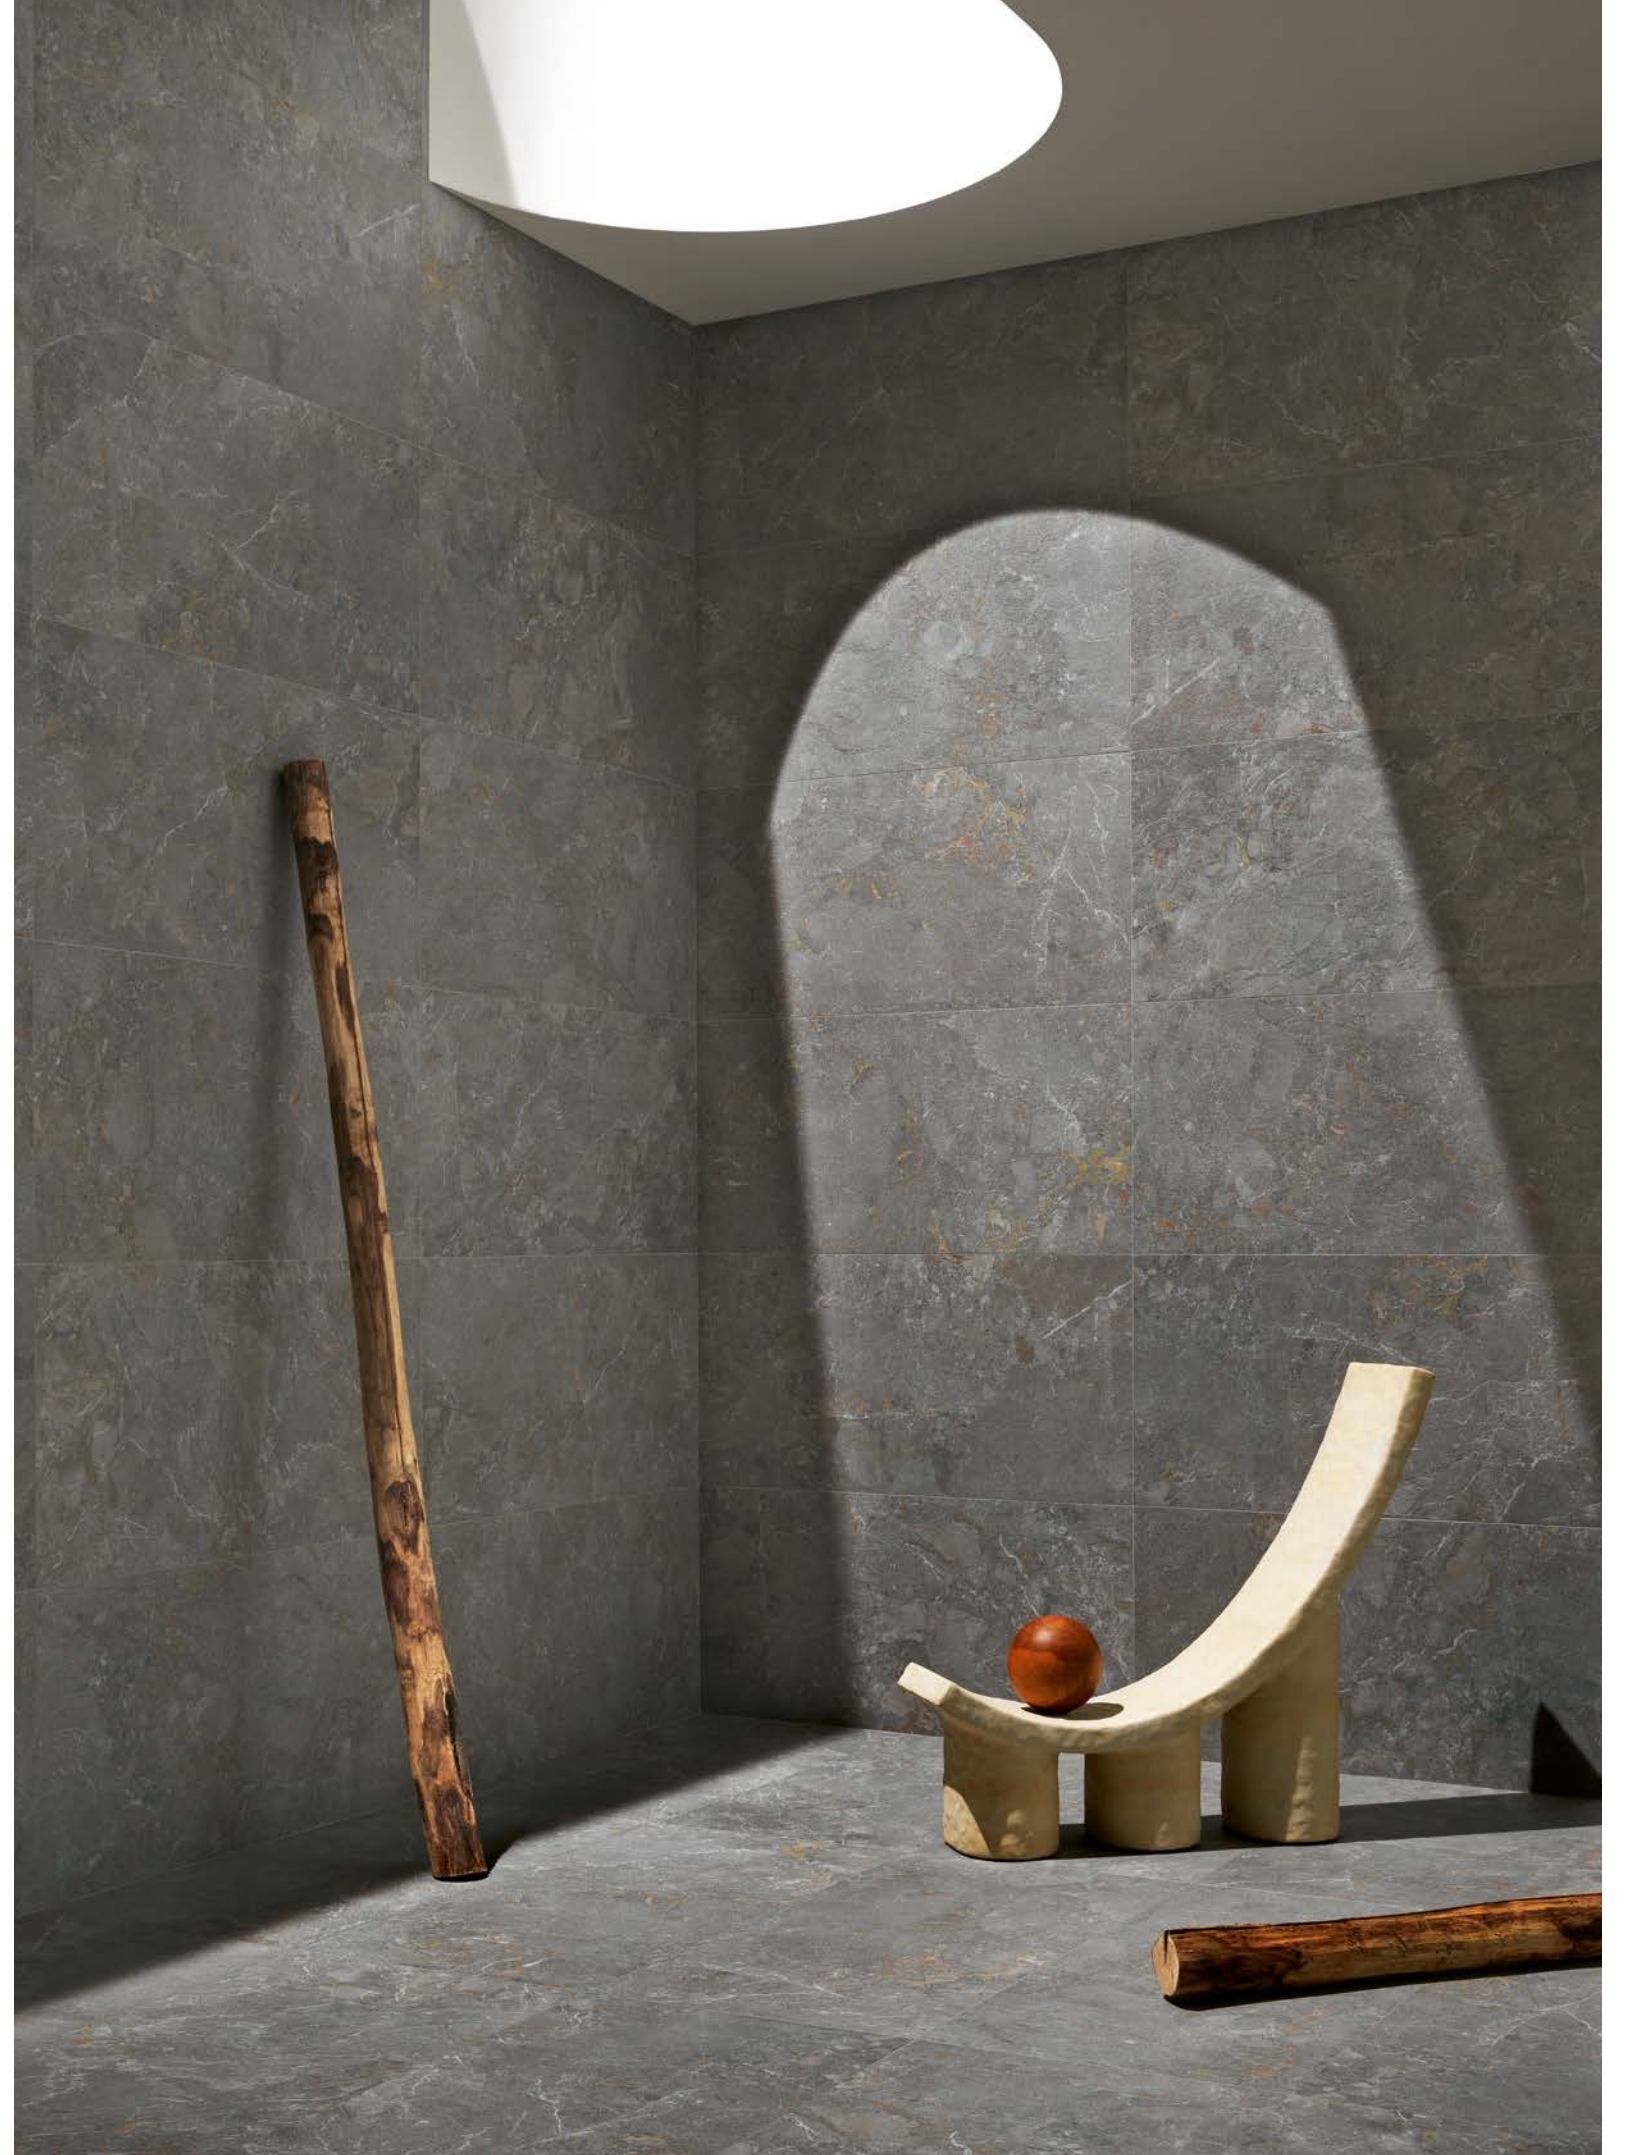

Breccia Grey

a poem in greys,
inspired by nature

Breccia Grey

A material look of vibrant vitality, with a grey surface criss-crossed by constantly different, exquisitely subtle white veins. Dinamika combines extreme technical precision with human know-how to generate an endless variety of graphic design, its natural beauty fully revealed by the light.

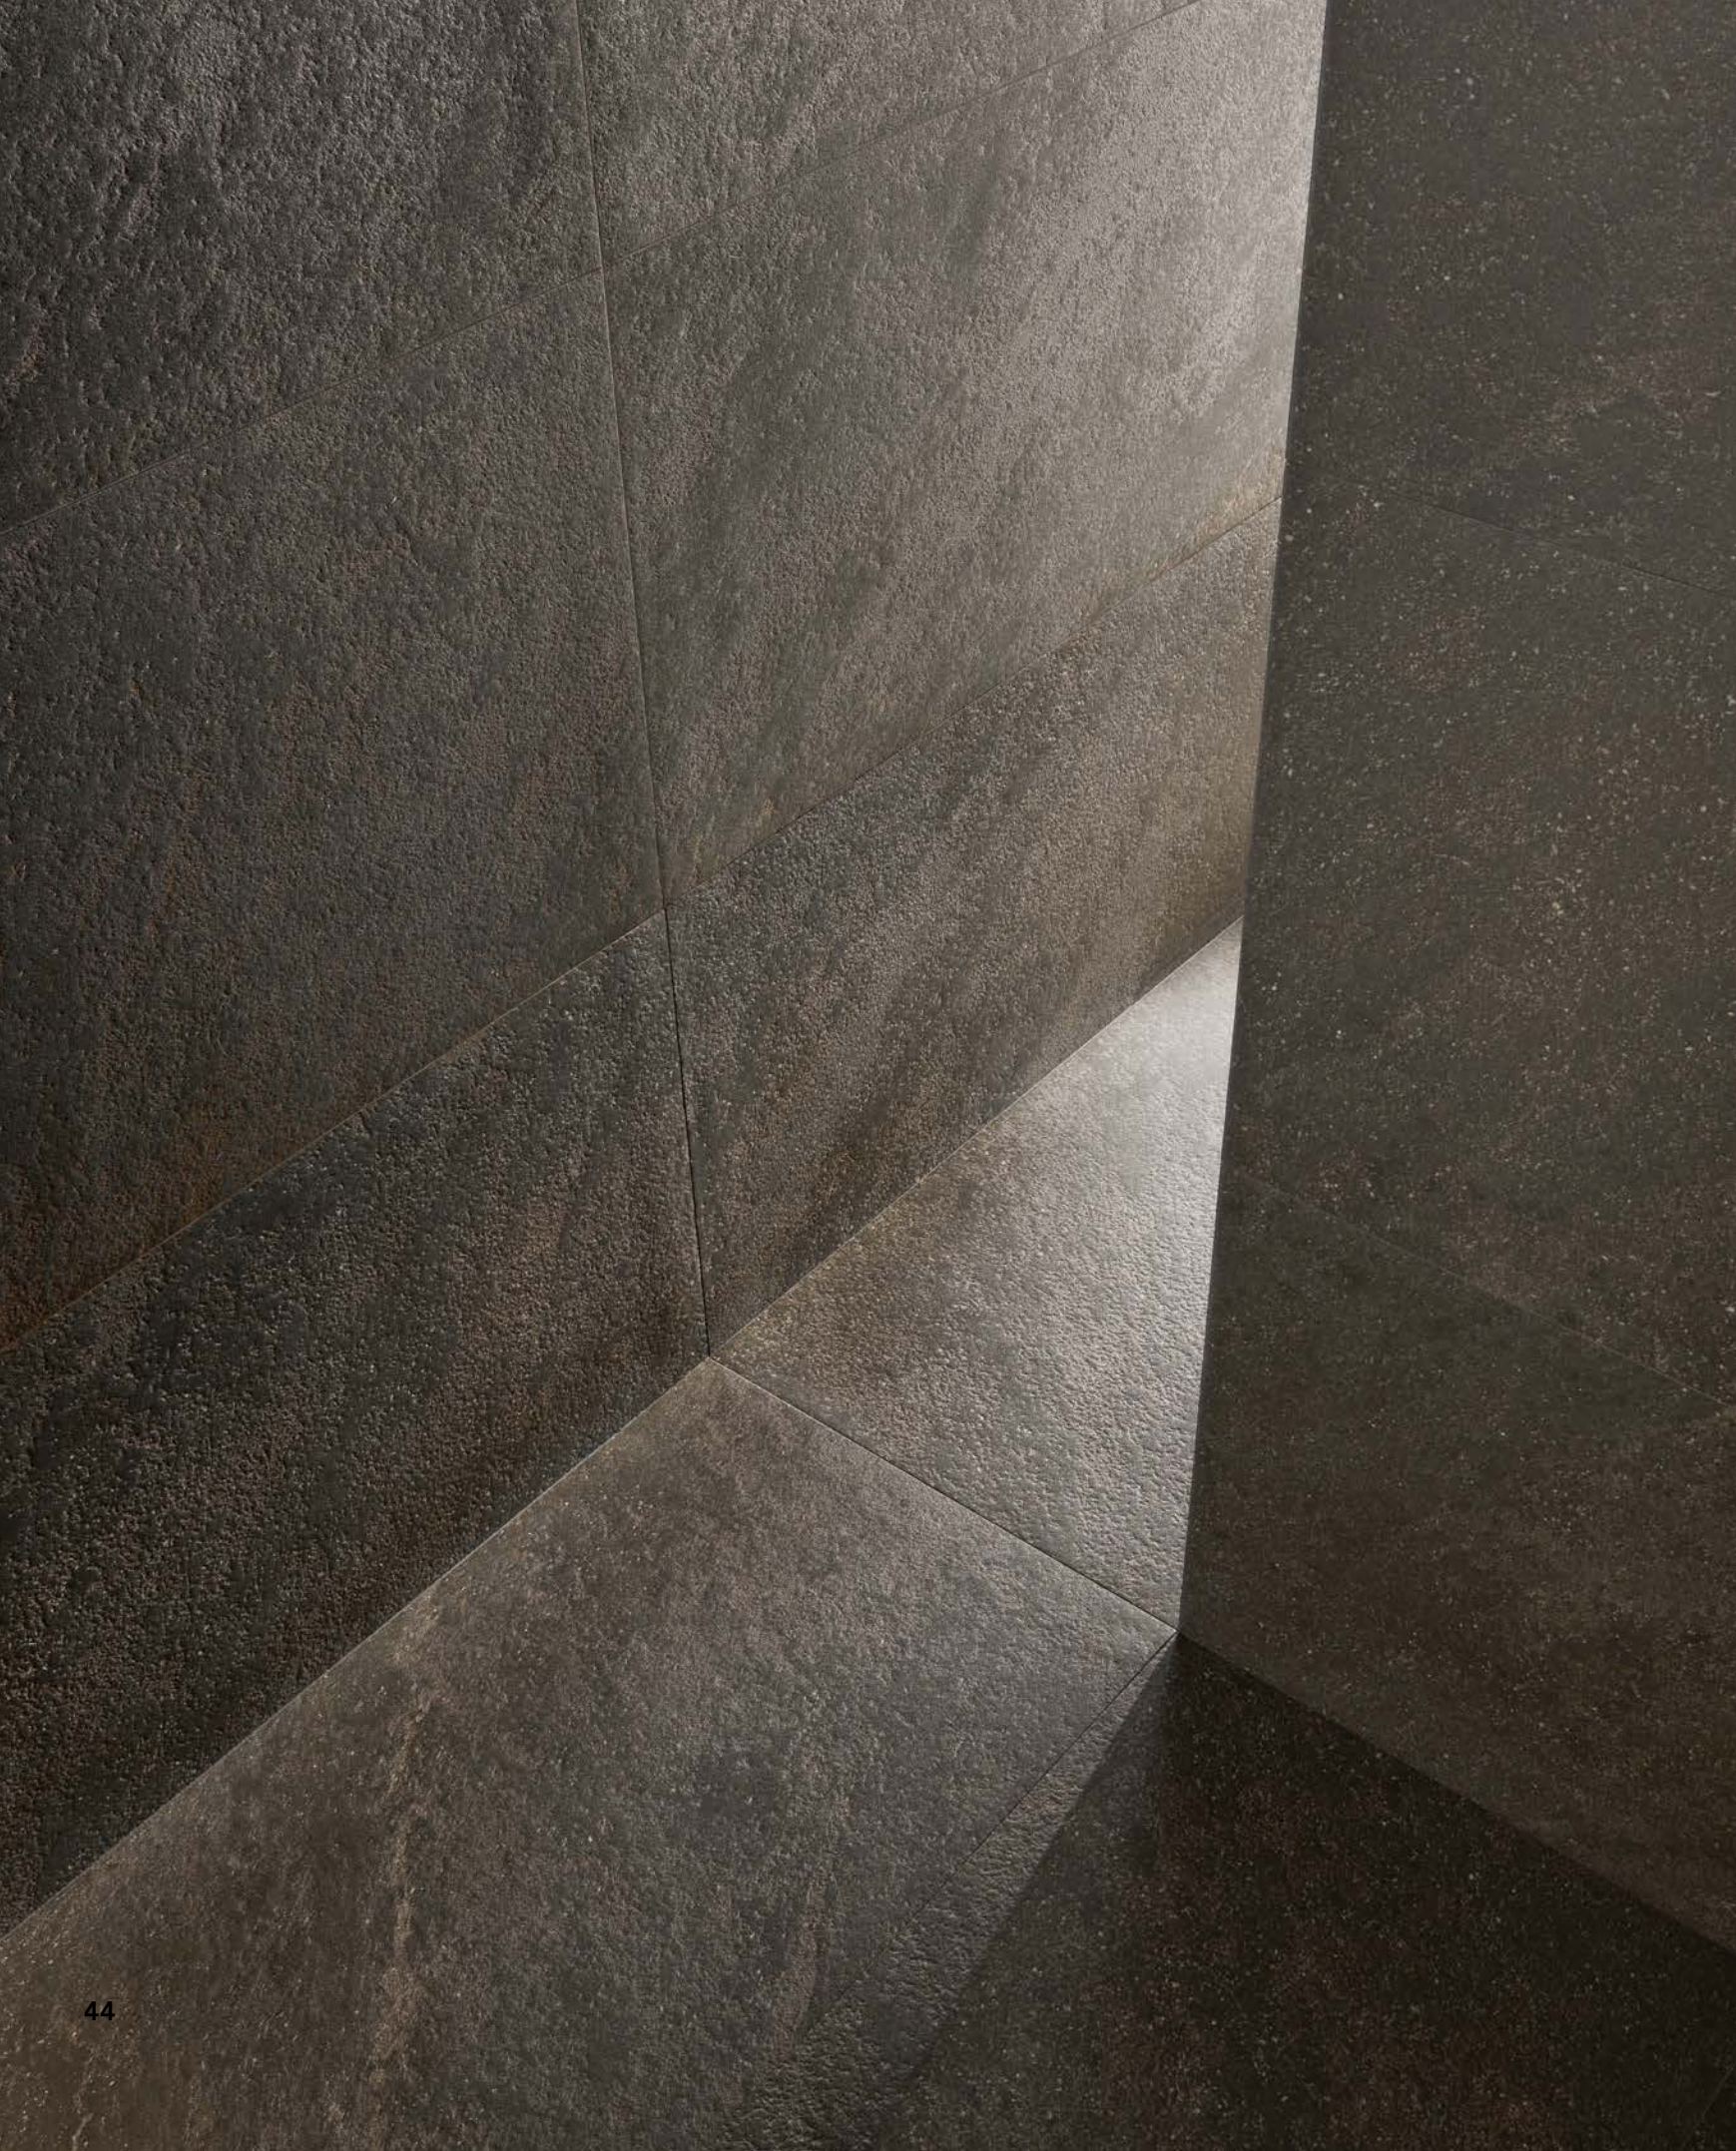

Pietra Pece

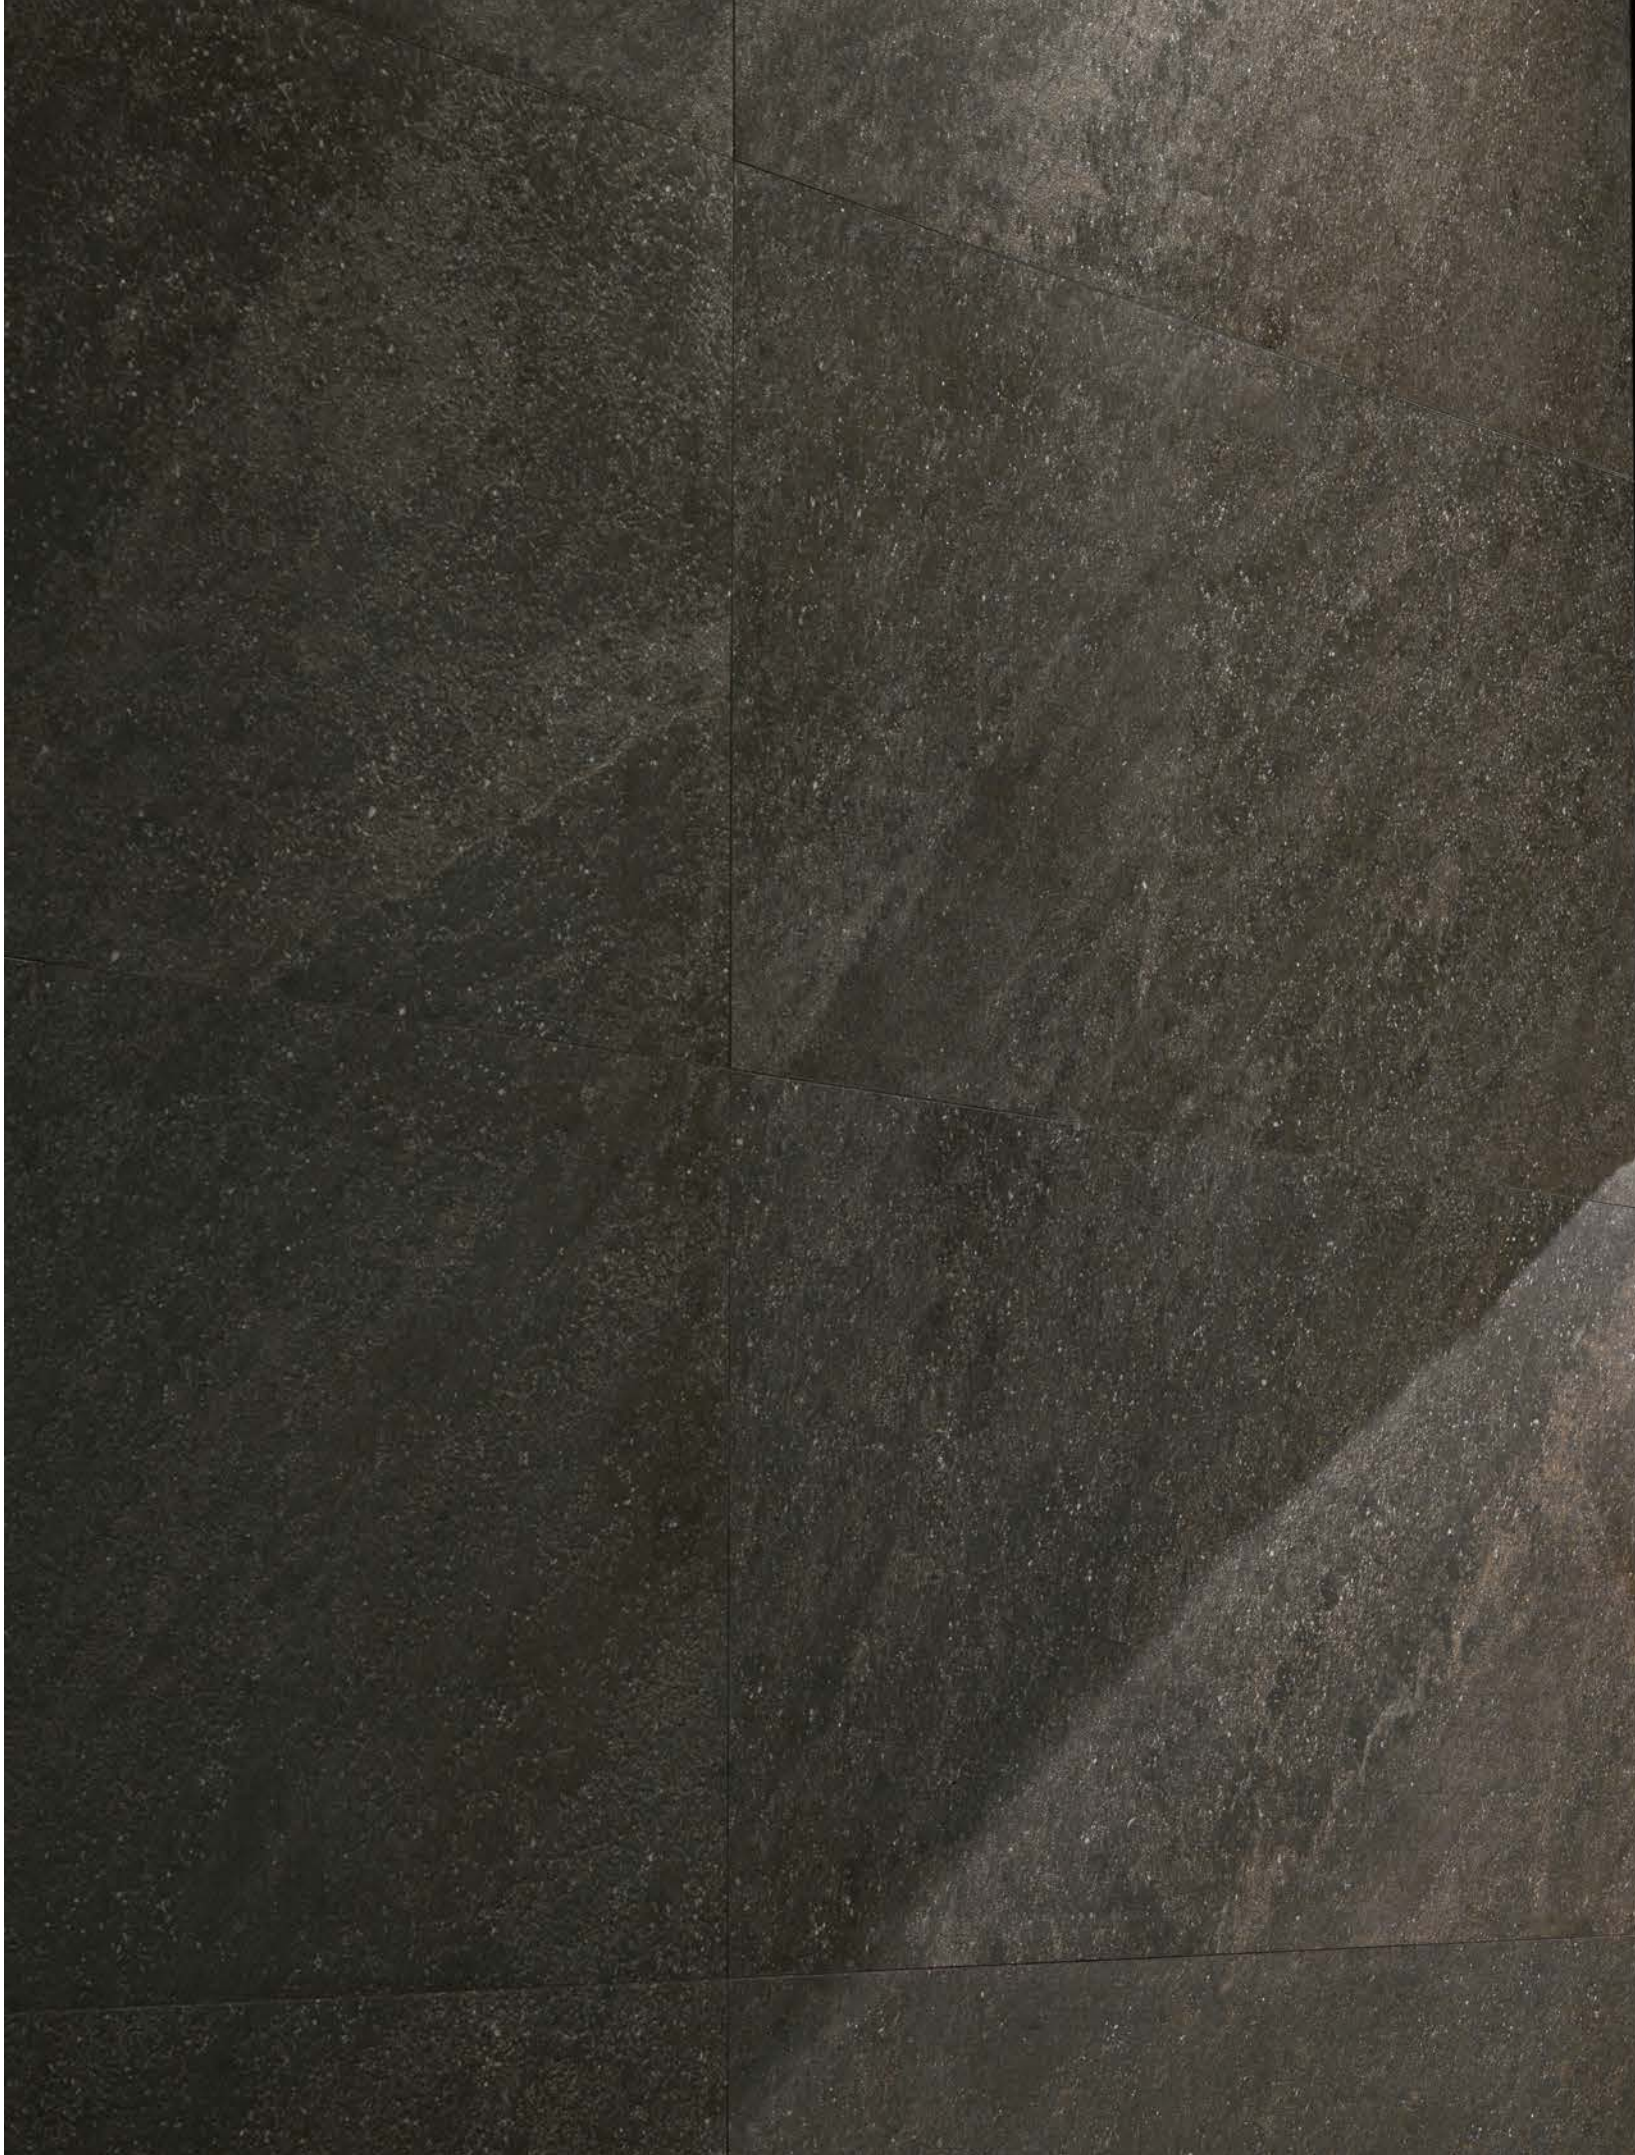

tactile inclusions in strong colours

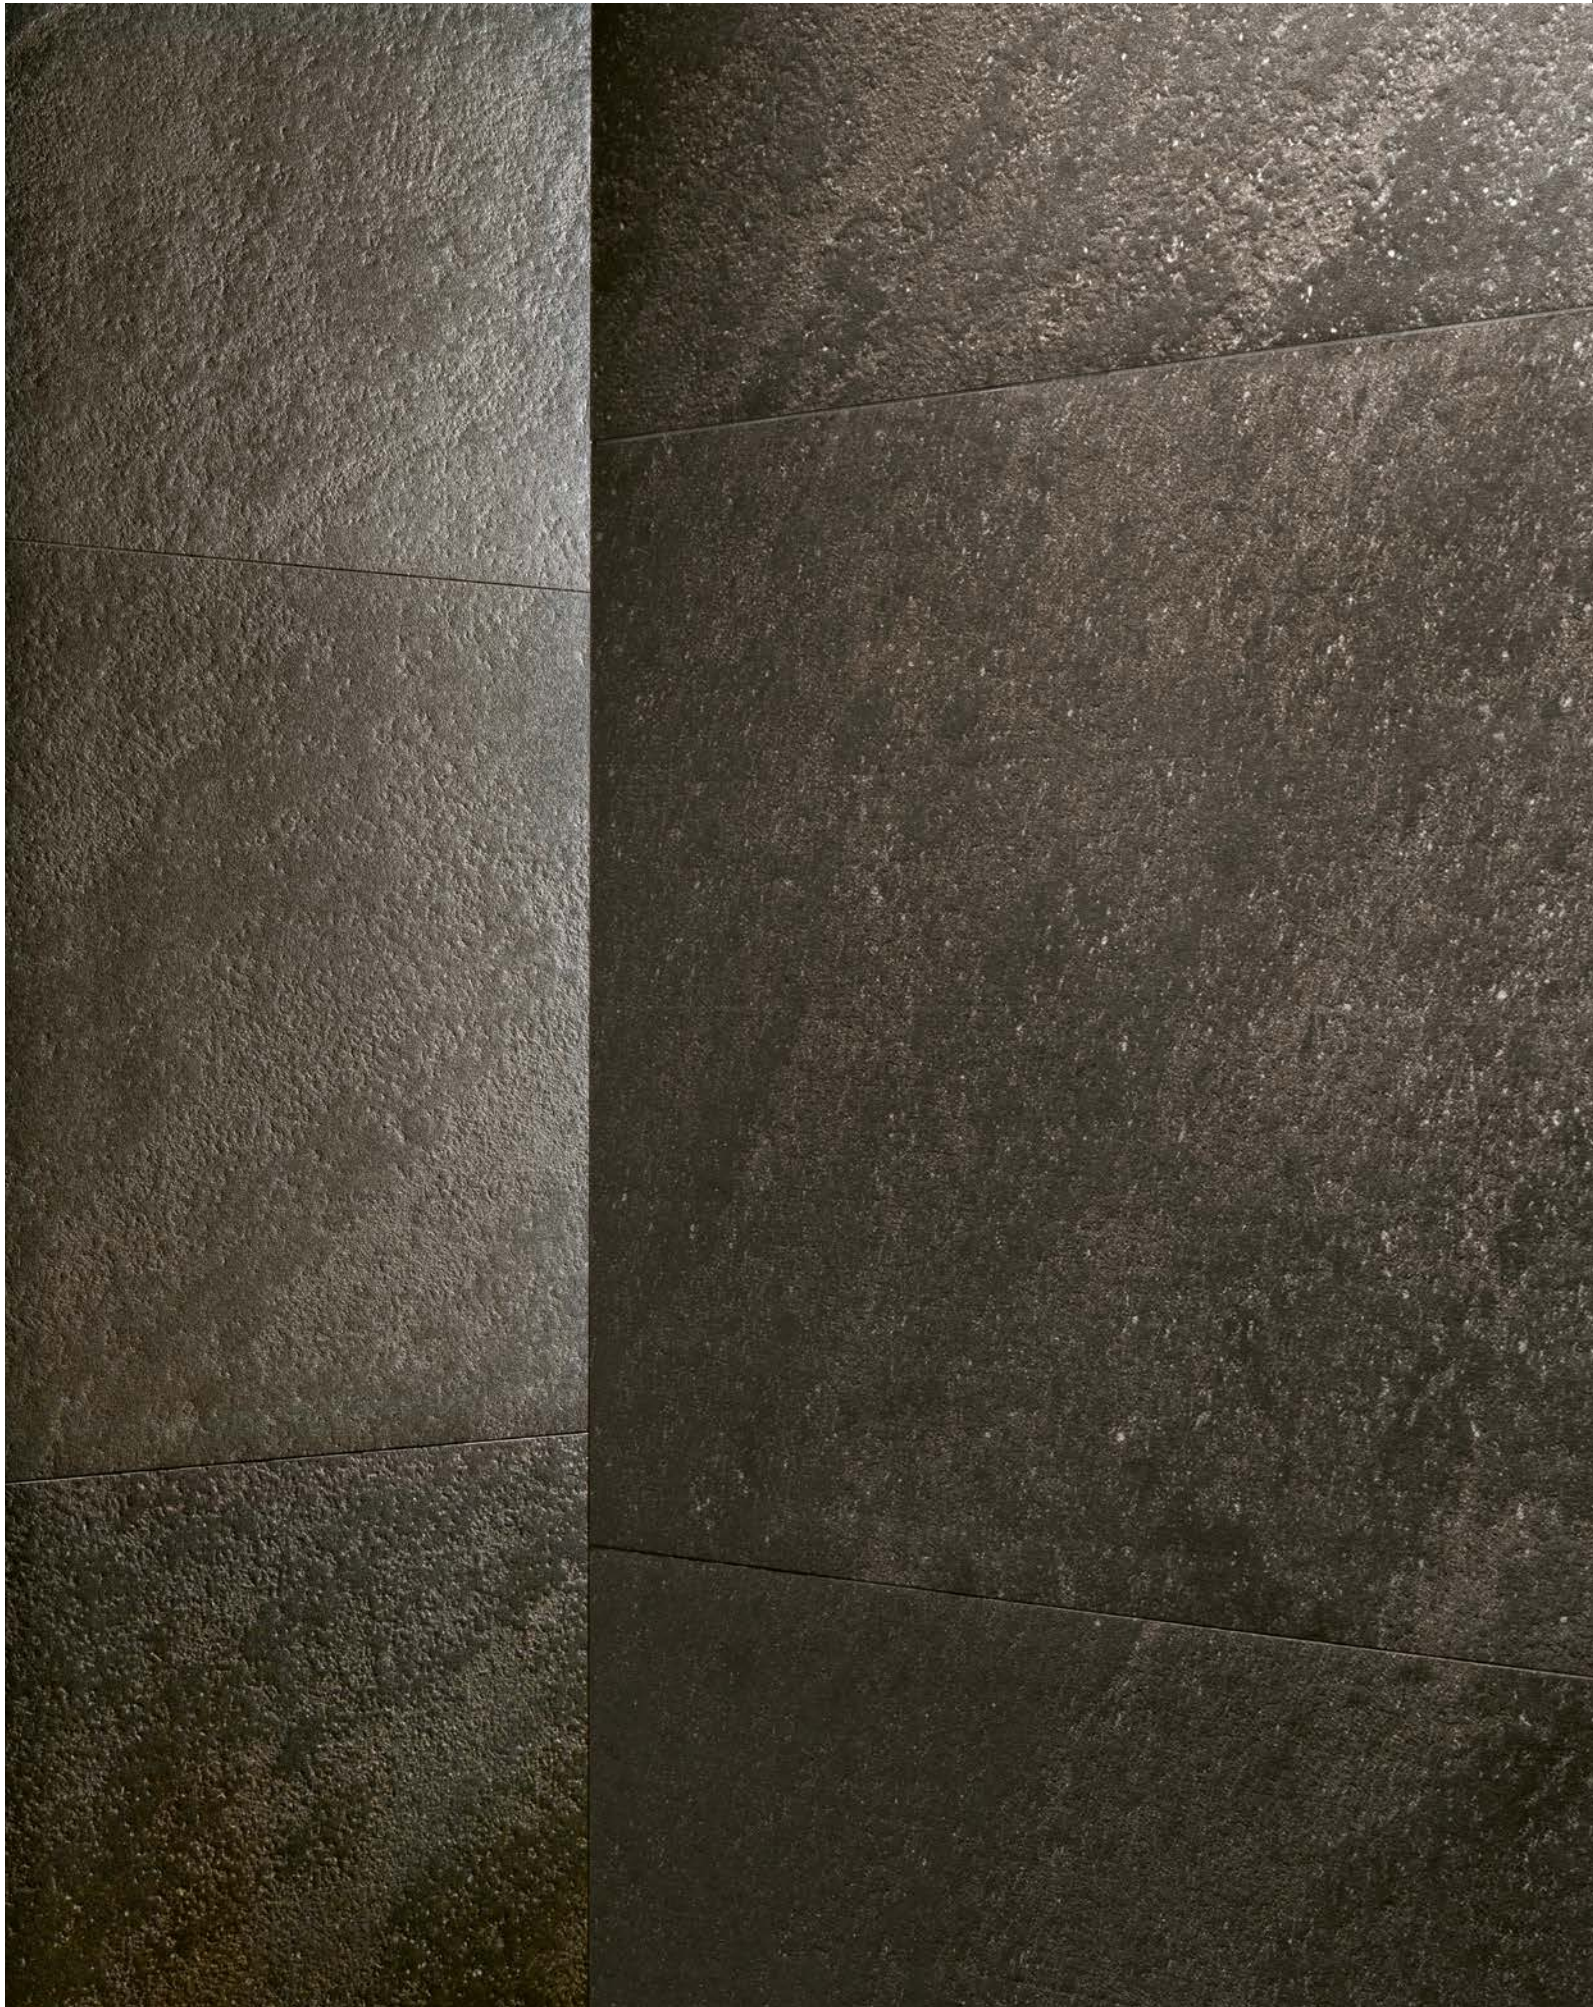

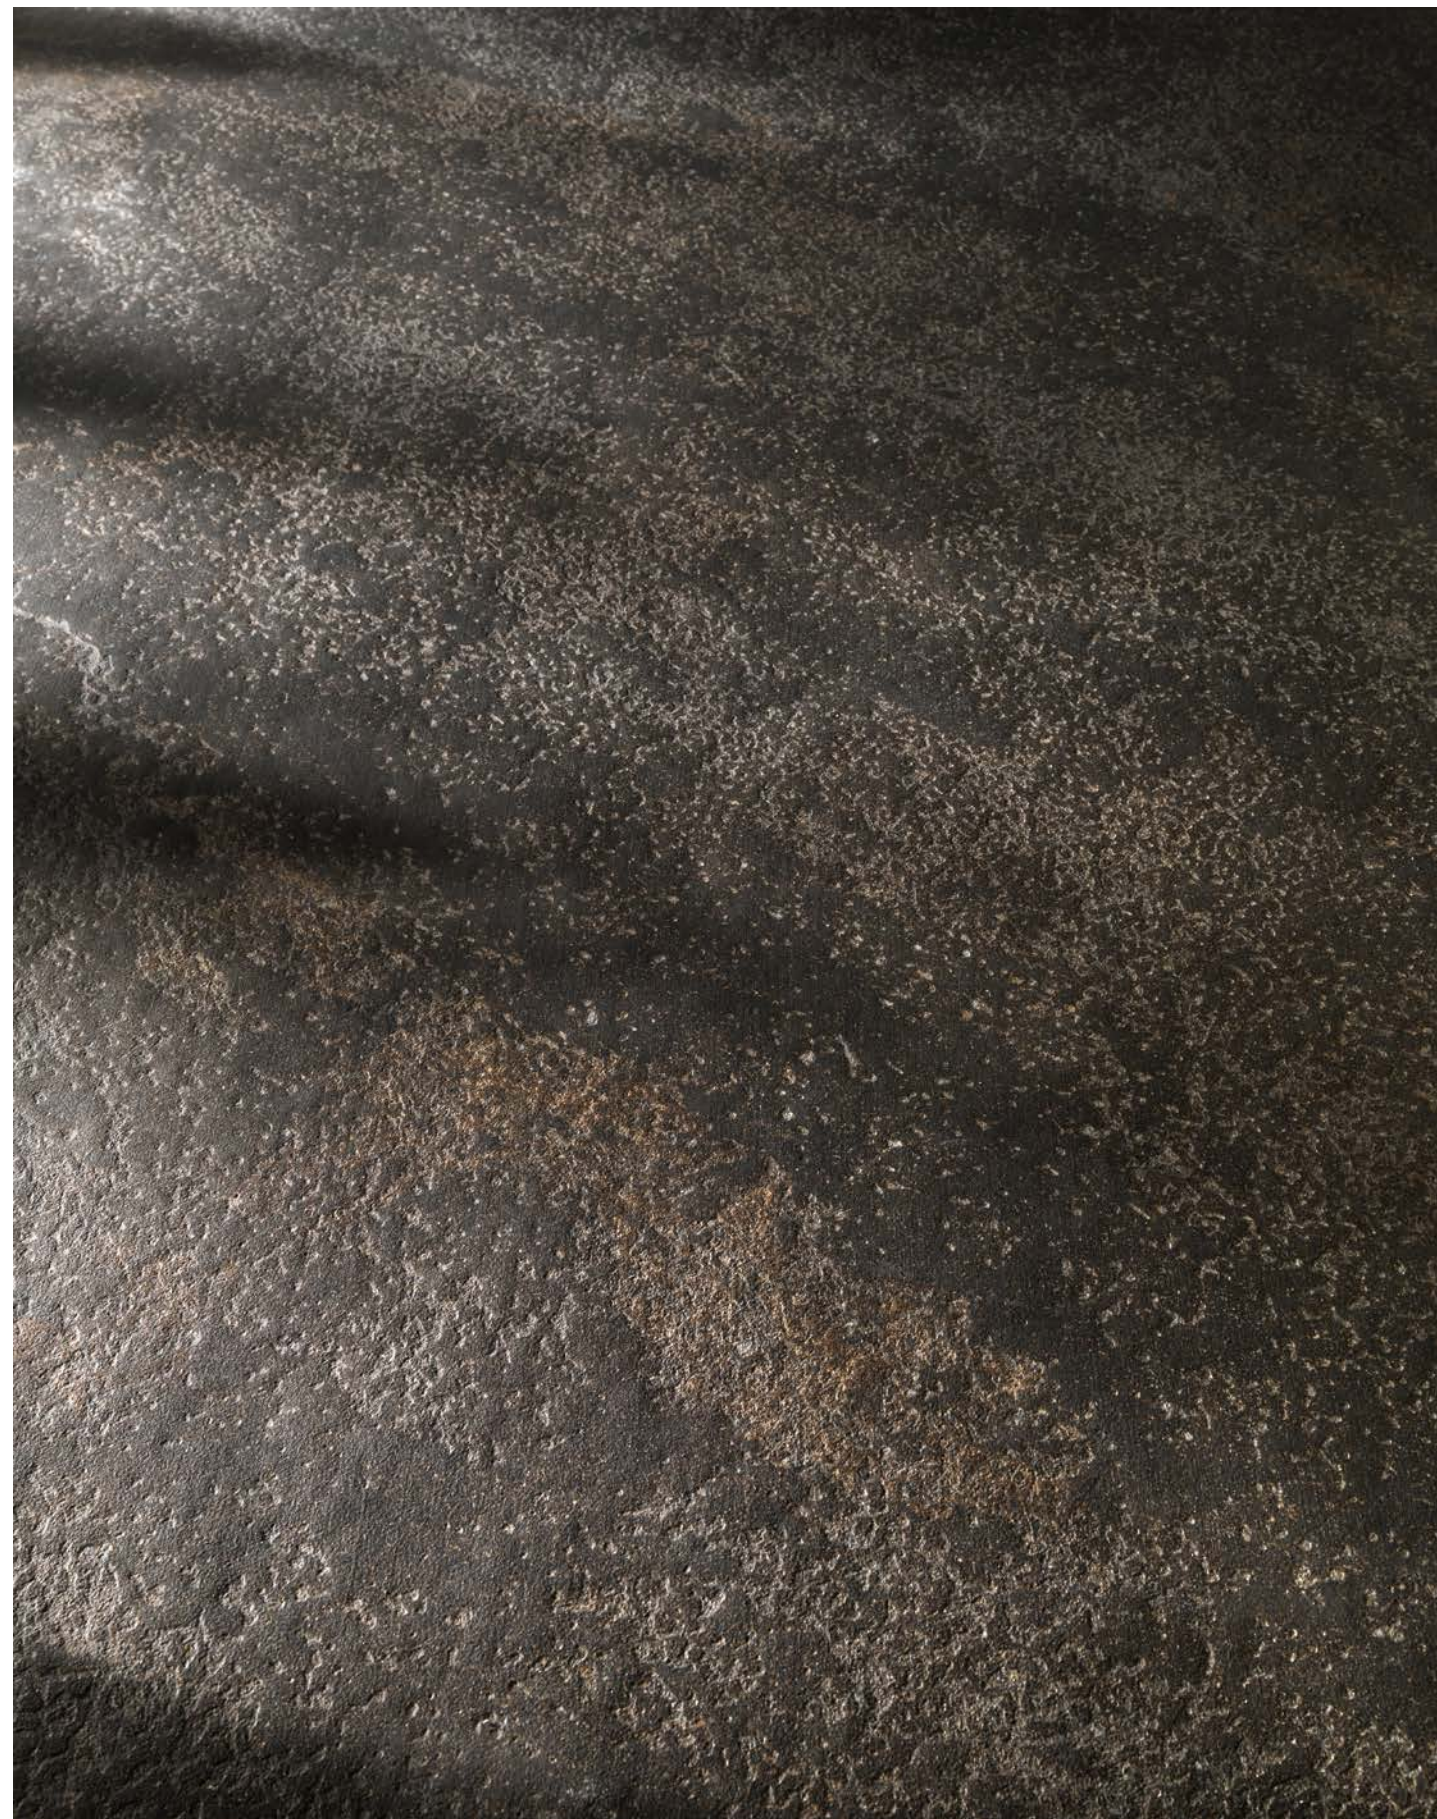

Pietra Pece

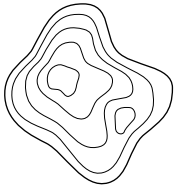

Uniquely coloured with hues varying from grey to dark brown, Pietra Pece evokes a surface treated with dark powders and pigments of different particle sizes to create high and bas-relief texturing. An exclusive three-dimensional material that invades the senses, giving Dinamika an original tactile allure.
