FLORIM IS
B CORP
CERTIFIED

We conceive the business as a positive force able to generate profits and at the same time create a virtuous impact on people and the environment. Since forever.

Our choices, day after day, have led us to improve our way of doing business.

Certified

Corporation

Watch the video "Being sustainable is a daily choice" with the faces of some of the "Florim people" who contribute to making the company even more responsible, every day.

WHAT DOES IT MEAN TO BE B CORP?

We vied with the **highest social and environmental performance standards**, and after a long and scrupulous verification process, **we became B Corp.**

Companies that succeed in obtaining this certification are the most evolved in the world in terms of their positive social and environmental impact.

They constitute a global movement of 'Purpose Driven Businesses' whose aim is to diffuse a **new economic paradigm**, whereby companies are the drivers of **social regeneration**.

REGENERATIVE BUSINESS

An historical **cultural shift** is under way, of which we are proud to be a part. One of the underlying principles of all B Corps is the adoption of a regenerative business model as opposed to an extractive one.

Regenerating means not only reducing the impact of business on our surrounding nature and environment, but also producing **positive effects, creating shared value in society and regenerating the biosphere.**

Only those companies that measure their overall impact through the Benefit Impact Assessment (BIA) exceeding the score of 80 points can be certified as B Corp, joining an elite of **regenerative** companies. Anyone who does not exceed this threshold is considered an **extractive company** or, in other words, they consume higher economic, social and environmental resources than they are able to generate as output.

FLORIM'S SCORE

Florim Italia score is 98.1 points and the consolidated, which includes the American subsidiary, is 90.9 points. Florim is now one of the best B Corp throughout the world.

More than 140,000 companies are currently seeking to obtain the certification **in compliance with the strictest transparency and sustainability standards.**

Only 3% manage to pass the verification process implemented by **B Lab**, the US certifying body that currently operates on a global scale.

Creative design

Complete projects dedicated to interiors wherein elegance and creativity come together in perfect balance. The project manifests itself through constant dialogue between the quest for colour and material contaminations inspired by nature.

NATURE MOOD

Creative design

NATURE MOOD

NATURE MOOD

Nature seen not as a resource to be dominated and exploited, but as the first absolute value. Nature as a home, as a cosy nest, as the perfect synthesis of what makes us feel good. With the **Nature Mood** collection, the natural environment “invades” man-made spaces, enters our homes and becomes part of the way we sense and experience our surroundings, influencing our mood in a positive way. Floors, wall coverings and furniture become an emotional backdrop interwoven in a harmonious dialogue of nuances and veining, making it possible for us to rediscover that psycho-physical balance from which increasing urbanization and technology often distance us. In line with the latest trends in housing evolution, Nature Mood conceives of Nature not only as a model, but also as a true mentor and gauge of human endeavor, something from which to acquire knowledge and with which to give life to increasingly environmentally friendly designs.

Due to the different production technologies, contiguous installation of products with different thickness may give a non-homogeneous result. For this reason we do not recommend this option.
