

## SWEET BARS

Is there anything better than being surrounded by niceness?

Chic matt colours, fresh and vibrant translucents, earthy organic clays, rich deep minerals or even altogether fused in harmony

*Flavour your day and nourish your senses!*

**WARNING! ¡ATENCIÓN!**

The size of the piece may vary depending on the colour. We do not recommend using compositions that mix different colours.  
 El tamaño de la pieza puede variar dependiendo del color. No recomendamos utilizar composiciones que mezclen diferentes colores.

**WAREHOUSING**

In order to guarantee the characteristics of the finish the product must be kept in its original packaging until the time of fixing. If the product is likely to be stored for a long period of time it should be suitably covered.

**TILE FIXING**

To ensure the products adhere correctly to the surface, it is essential to use specific adhesive and grouting material. This must also be suitable for the environment they will have to withstand. Fitting with traditional mortars does not ensure good adhesion.

Due to the nature of the material there may be dimensional variations between pieces. Therefore, all types of joints must be planned and carried out correctly: structural, perimeter, expansion and installation joints. Fitting tiles without joints is not advisable from any technical point of view as this may lead to various problems.

For an optimal result that enhances the mosaic effect, we recommend using 1,5 mm (0.06") of joint, as well as a joint color that contrasts with the tone of the piece.

We do not recommend using a grout color similar to the piece.

**MAINTENANCE AND CLEANING**

Once the materials have been fitted, it is advisable to remove any remaining adhesive and grouting material by using a commercial descaling product designed especially, diluted with water. The descaling product must not remain in contact with the surface to be cleaned for more than 5 minutes.

As a general guideline, powder detergents should not be used, not wire wool or abrasive materials. Generally a sponge will be sufficient with warm water and liquid neutral soap. Then rinse with plenty of clean water.

**WARNING!**

Due to the glaze specifications of colours: SB Turques Gloss, SB Honey Gloss, SB Olive Gloss, SB Teal Gloss and SB Indigo Gloss; It is strongly recommended to avoid using these products on kitchen countertops or any other surface where the tiles might be in contact with food.
