PIERRE VIVE

TIMELESS NATURE

Timeless Nature

PIERRE VIVE è un omaggio alla pietra naturale:
viva nel tempo, capace di rinnovarsi attraverso lo sguardo del design contemporaneo.

Una collezione che restituisce la matericità autentica della pietra,
trasformandola in superfici pensate per spazi che uniscono carattere,
armonia e funzionalità.

La gamma si compone di quattro varianti cromatiche e due versioni
grafiche, ciascuna con una personalità distinta.

Un progetto che ama la bellezza della pietra nella sua essenzialità, nelle
sue imprecisioni legate all'usura del tempo, lasciando emergere tonalità,
variazioni ed imperfezioni come elementi di valore.

Le texture e le strutture richiamano le lavorazioni artigianali: un effetto
hand made che trasmette naturalezza e aggiunge note di carattere alla
progettazione
degli spazi quotidiani.

PIERRE VIVE ribadisce l'attenzione ai dettagli che contraddistingue
ogni collezione Kronos: un equilibrio tra ricerca e memoria, tra
innovazione e radici materiche.

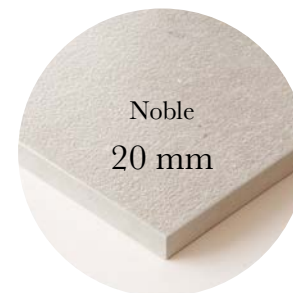

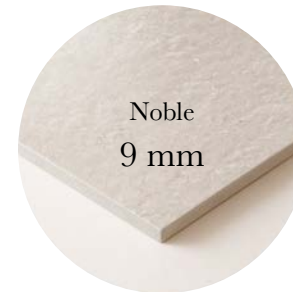

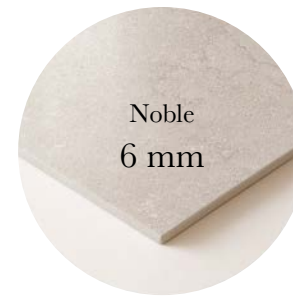

PIERRE VIVE is a homage to natural stone:
living through time, able to renew itself through the fresh eyes of contemporary design.

A collection with the authentic texture of stone, which transforms it into surfaces for creating
spaces that combine character, immaculate beauty and convenience.

The range comprises four colour variants and two graphic versions, each with its own clearly
defined personality.

A project with a passion for the beauty of stone, in all its simplicity and with its imperfections
that reflect its wear over time, revealing its shades, variations and flaws as integral to its value.
The textures and structures evoke the work of traditional masons: a hand-made look that
conveys an impression of naturalness and adds character to the design of the spaces where we
live our lives.

PIERRE VIVE reaffirms the care over details typical of every Kronos collection:
a fine blend of ground-breaking research and memory, innovation and material origins.
