

CALISSA PLANK

10"×60" | 12"×70"

WHERE SIMPLICITY
BECOMES STRUCTURE.

BALANCED AND MODERN, CAPTURING NATURAL NUANCE.

Inspired by the serene atmosphere of ancient meditation halls, Calissa Plank™ introduces a calm sense of order to modern spaces. Its knotless, linear grain reflects the quiet intentionality of Japanese Zen gardens and the measured restraint of modern monastic architecture, establishing a visual flow that guides the eye and allows an environment to breathe.

The result is a surface that feels balanced and uncluttered— where simplicity becomes structure.

Crafted with Digital Texture™ technology, Calissa Plank's surface subtly and randomly reveals the depth and detail of wood, capturing its natural nuance. Light interacts softly with the texture, enhancing dimensionality yet reinforcing tranquility. Balanced and modern, the collection transforms spaces into places of pause—where material, light and time align in effortless harmony.

Elongated 12"x70" and 10"x60" plank formats, offered in a matte finish with the 10"x60" also available in a grip finish, create continuity throughout interiors and exteriors. The generous proportions create luxurious environments that feel expansive and sophisticated. Three luminous colors—Maple, Golden, and Urban Walnut— provide variations of wood tones without excess, each offering a unique architectural expression.

The collection is complemented by two mosaic decos that integrate seamlessly with the plank formats. The 16”x17” Blossom Deco introduces a creative floral touch with biophilic appeal, while the 10”x60” Strips Deco reinforces the collection’s linear rhythm.

Whether used as focal points, accents, or transitions, both introduce movement, texture, and interest while preserving a sense of visual balance. Versatile, expressive, and naturally modern, Calissa Plank creates spaces that feel serene, balanced, and enduring – where refined design meets harmony and ease.

Progress that invests in the entire society

As an active member of the U.S. Green Building Council, MILE[®]stone spreads awareness to the community and encourages the use of building solutions through environmentally friendly practices. Our products positively contribute to the requirements for obtaining the LEED (Leadership in Energy and Environmental Design) and WELL (IWBI) certifications.

A commitment to environmental sustainability and responsibility

We are committed to conscious development that minimizes the negative impact of manufacturing production on the environment. Our general approach to sustainability intersects with our business strategy to embrace three areas of responsibility: economic, social, and environmental. Some ways we prove this are:

- Products containing as much as 64% recycled content.
- Zero industrial wastewater discharge.
- A 99% internal process recycling rate.
- 100% regionally sourced raw materials used in the production of the body of our tile, supporting local industries and sustainable practices.

MILE[®]stone is taking these and other steps, as well as actively investing to reduce carbon emissions to ensure that we reach full carbon neutrality.
