

PAGOSA

COLOR BODY PORCELAIN

The Beauty of Travertine, Reinvented

A horizontal strip of travertine with a warm, golden-brown hue. The surface features prominent, wavy, horizontal veins and a slightly textured, natural stone appearance.

CARAMEL

A horizontal strip of travertine with a light, off-white to cream color. The surface is characterized by a dense, granular texture with small, dark spots and subtle variations in tone.

IVORY

A horizontal strip of travertine with a warm, light beige or tan color. The surface shows a mix of fine, horizontal lines and a slightly mottled texture, giving it a refined yet natural look.

BEIGE

A horizontal strip of travertine with a cool, light gray to silver tone. The surface has a very fine, almost crystalline texture with subtle variations in shading, creating a modern and sophisticated appearance.

STONE LOOK

Deep in the heart of the San Juan Mountains lies Pagosa Springs, Colorado, a landscape shaped by time—where thermal waters carve through stone, revealing intricate layers of history. It is here, among the region's famed travertine formations and mineral-rich springs, that Pagosa from Florida Tile finds its inspiration. A tribute to nature's artistry, this collection captures the soul of authentic travertine while elevating it with modern durability and sustainability. Each tile is imbued with the soft veining, warm tonal shifts, and organic textures that define natural stone, reimagined through cutting-edge surface technology. The result is a collection that effortlessly merges natural beauty with modern adaptability.

With the fusion of advanced digital printing technology and the sophisticated 3D Plus finish, Pagosa presents a hyper-realistic, tactile surface that elevates visual depth. Offering a choice between vein-cut and cross-cut graphics, it provides astonishing realism, rich textures, and a nature-inspired color palette, rendering Pagosa a profound connection to the earth's inherent beauty.

Each of the four earth-inspired shades in the Pagosa Collection reflects the raw, untouched beauty of natural travertine, shaped over millennia by mineral-rich waters and shifting landscapes:

Ivory: A luminous, creamy white with subtle veining, evoking sun-drenched stone softened by time.

Beige: A warm, neutral tone that mirrors the delicate sand and clay deposits found in natural travertine formations.

Silver: A sophisticated, cool-toned gray that embodies the depth and quiet resilience of weathered stone.

Caramel: A rich, golden-brown hue infused with warmth, reminiscent of sunlit cliffs and mineral springs.

The Pagosa collection features a stunning array of porcelain tiles available in both matte and 3D Plus finishes. Offered in rectified field tile formats of 12x24 and 24x48, it showcases a choice of vein-cut or cross-cut graphics across all colors and finishes. The collection also includes unique mosaic options: a 36-piece square mosaic (matte only), a 2x6 basketweave mosaic (available in both matte and 3D Plus), and a 2x10 rounded chevron mosaic (3D Plus only). Each mosaic beautifully blends vein-cut and cross-cut designs, ensuring a cohesive aesthetic in every color. Additionally, a 3x24 bullnose trim is available in all colors and finishes to complete your design.

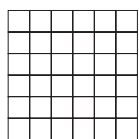

Pagosa color body porcelain tile is appropriate for most residential and commercial interior, dry and wet applications including walls, countertops, backsplashes, and floors. Made in the USA at our Green Squared® certified Advanced Manufacturing Center in Lawrenceburg, KY, it includes pre-consumer recycled content and is GREENGUARD® and Porcelain Tile certified. Incorporated into the tile surface is Microban® antimicrobial technology that works continuously to inhibit bacteria growth, improve visible cleanliness, and reduce odors.

Pagosa Collection Tile Finishes

The Pagosa collection features two exquisite finish options designed to elevate your space: 3D Plus and Matte. Each option offers its unique aesthetic and functional benefits, providing versatility for both residential and commercial applications.

3D Plus Finish

- The surface achieves a remarkably realistic texture, utilizing a digital application of an adhesive substrate that synchronizes perfectly with the underlying graphic.
- Tactile Depth: A thick layer of dry glaze, also known as micro-grits, is applied to create a structure that mirrors the intricate design beneath, resulting in a visually sophisticated surface with rich tactile depth.
- Precision Polishing: Following the initial dry-glaze application, tiles undergo a precision polishing process. Specialized polishing heads gently grind the surface to refine the glaze, achieving a smooth, balanced finish that preserves the depth of the original texture.
- Enhanced Performance: A final nano-treatment elevates the visual appeal while making the surface highly resistant to stains and aggressive cleaning agents.

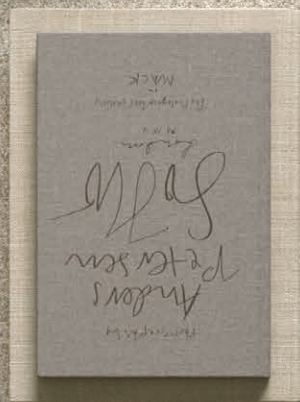

Matte Finish

- The matte finish offers a soft, non-reflective surface that exudes understated elegance.
- With a subtle texture, these tiles enhance visual appeal while providing a warm, inviting feel.
- Timeless appeal: Colors appear subtly soft in a matte finish, allowing for deeper, more nuanced expressions in any design.

Trim	Shape	SKU	Nominal Size (in) ¹	Metric (cm)
Bullnose		P43N9	3x24	7.5x60

¹ These values may vary from lot to lot.

² These values are based on actual sizes including the grout joint.

³ May not apply to textured surfaces or tiles with uneven back patterns such as mesh mounted mosaics.

⁴ Matte only.

⁵ 3D Plus only.

⁶ Each Rounded Chevron Mosaic is two parts, side A and side B. This item is sold (6) pieces per carton, in sets of (3) A's and (3) B's. The total coverage per carton is 4.86 SQFT.

Typical Uses

Pagosa color body porcelain tile is appropriate for most residential and commercial wall, countertop, backsplash, and floor applications.

Notice: Not all flooring products are suitable for wet areas, specialized applications, or commercial use. Please refer to the American National Standard Specifications for Ceramic Tile (ANSI® A137.1) for ceramic, stone, and glass installation for specific usage and installation information.

This Florida Tile product will contribute to USGBC LEED® points and the ANSI® approved NAHB® Green Building Points.

Notes

Color, texture, and finish variations may occur due to the nature of the product.

Color reproductions in this printed piece may vary from actual tile colors. Final selection should be made from actual tile samples.

Country of origin and other product features and characteristics are subject to change due to manufacturing efficiencies and other factors. See retailer or product packaging to verify country of origin and other product characteristics.
